

BUS REGULATION BILL GIVEN O. K.

Moorehead Measure, Passed by Senate Places Motor Busses Under Public Service Commission

AUTO BANDITRY BILL DIES

Senate Votes to Make it Special Order of Business on Day After Legislature Adjourns

(By United Press)

Indianapolis, Ind., Feb. 11—After an hour's sharp debate in which charges of existence of powerful lobbies for and against the measure were hurled back and forth, the senate today passed the Moorehead bus regulation bill.

The senate also killed the bill sponsored by Senator Batt of Terre Haute to provide the death penalty for automobile banditry.

Senator Nejd, republican floor leader, moved that the bill be made a special order of business for March 10.

Senator Batt protested that the legislature will be adjourned by that date.

The motion of Senator Nejd was adopted and the bill was killed.

"Under that bill a negro, who stole a couple of chickens and drove away in a second hand flivver, would be put to death," stated Senator Shank of Angola.

The Moorehead bill, which provides for regulation of motor busses and trucks, acting as common carriers on Indiana highways, by the public service commission, received a vote of 33 to 15.

The bill now goes to the house.

"There has been no more consistent lobbying against people's interests in the legislature, than there has been by opponents of this measure," Senator Moorehead of Indianapolis, sponsor of the bill, declared.

Senator Brown who led the opposition, said that most of the lobbyists were from railroad and traction interests trying to have the bill passed.

He said that the measure would only eliminate competition among bus operators and as soon as the competition is eliminated the rates will be raised.

Without a word of opposition the bill introduced by Senator Cooper of Vigo to prohibit the wearing of religious garb by teachers in the public schools passed to third reading in the house.

A similar bill was killed in the

GIRL'S CLUB LEADERS SCHOOL SET FOR FRIDAY

At Least Eight and Possibly Nine Townships Will be Represented—
to Outline Year's Work

TO DISCUSS PROJECT WORK

The Girl's Club leaders school will be held at Rushville Friday at 10 a. m. at the court house. Miss Neva Stephenson from Purdue University will be in charge of this school. Eight townships have already made arrangements for club work this coming summer and it is expected that possibly one other township will have a representative at this meeting.

During the corn show two or more representative women from each township met in Rushville and decided to carry on the first year's sewing project during the coming summer. It is the general plan of this project work that each woman's organization carrying on the work will send two representatives to Rushville once a month who will receive instructions from the lady sent from Purdue University. These township representatives will then return to their townships where they will explain in detail the work as suggested at the county meeting.

This work has been carried on for a number of years in many counties of the state and has received enthusiastic report where carried on. The first one of these schools for the women's project work will be conducted at Rushville Wednesday, March 11, at 10 a. m.

HAND CAUGHT IN AUTO WHEEL

James Robert Barry, Age Two Years, Suffers Deep Scalp Wound

James Robert, the two year old son of Mr. and Mrs. Edmund Barry, was painfully injured Tuesday, in a peculiar mishap. Mrs. Barry was cranking an automobile, with the rear wheels jacked up. The boy was near one of the wheels when it began to spin, and he grabbed at it.

His hand was caught in it, and he was thrown to the ground on his head. A deep gash, requiring two stitches, was cut in his head, and his hand was badly smashed. It was feared at first that his skull was fractured, but it was believed today that he will suffer no ill effects, although the injuries are painful.

SHAFT LESS THAN 20 FEET FROM COLLINS

H. T. Carmichael, in Charge of Cave Rescue Work, Expects to Reach Entombed Man by Friday Noon

CREVICE MAY LEAD TO PRISON

Drill Running Ahead of Diggers Locates it—No More Radio Tests Can be Made

Cave City, Ky., Feb. 11—No more radio tests can be made to ascertain whether Floyd Collins' soul lives.

The electric light bulb on Collins' chest has burned out or was jarred from its socket, thus listeners at the cave's mouth cannot determine with their amplifiers whether Collins is breathing or not.

The new shaft is sinking toward Collins at record speed, H. T. Carmichael, in charge of the digging reported. It has reached a depth of more than 42 feet, leaving less than twenty feet to go.

Carmichael is convinced his men will pierce Collins' cell not later than Friday noon.

Five feet below the bottom of the shaft being sunk toward him is a four foot crevice which may mean the early release of Collins, through this underground prison.

This was ascertained today by a drill running ahead of the diggers to keep them informed of the conditions they must meet.

It was found the odor of banana oil gas which was so strong in the bottom of the shaft last night emanated from an eight inch crevice in the side wall. The gas is being used in an effort to find a second and rear entrance to Collins rock cell.

This and the presence of cave crickets in the dirt removed gave rise to hopes of Collins' early release.

After a hurried conference early today, H. T. Carmichael in direct charge of the pit, asserted they would seek to reach the large crevice beneath the floor rather than widen the narrow one uncovered. Geologists believe the smaller crevice leads into the one beneath the floor and that this connects directly with Sand Cave.

Use of dynamite, started last night to hasten work, was abandoned today as the workers drove nearer the roof of Collins' cell.

TIME TO GET BIDS POSTPONED

Estimates on Shelhorn Road Will Not Be Received on March 2

Bids for the Fred Shelhorn road in Anderson township will not be received at the March meeting of the county commissioners, as planned at the February session, because it was found that viewers had to be reappointed, and they will not report until March 2 the day for the regular March session. The board ordered the auditor to advertise for bids and then discovered the other steps were necessary, making necessary the postponement of the time for receiving bids.

The Rhodes petition from Center township was for the appointment of an assistant road superintendent instead of being for a new road, as previously announced. The appointment will not be announced until the appointee gives bond as required.

RUSHVILLE LODGE LEADING IN STATE

Pledges to Knights of Pythias State Home Project Ahead of all Others, on Per Capita Basis

61ST ANNIVERSARY FEB. 19

Definite Amounts Raised Throughout State Will be Announced in Connection with Observance

Rushville Knights of Pythias are leading in the state home project, according to word received from drive to raise funds with which to build a home for orphans and aged members of the order.

The reports of all lodges in the state are to be given in by Saturday and the figures will be compiled by Grand Lodge officers, so that definite amounts can be ready to be announced on next Thursday, February 19.

On that date the Pythias lodge will celebrate the 61st anniversary of the founding of the order, and all lodges of the state have been asked to meet on that night and participate in the observance of the anniversary.

Grand lodge officers who are within close distance of Indianapolis, have been asked to attend the meeting in that city, and in all other lodges of the state an effort is being made to have a Pythian Home Page rank class for initiation.

On that night, each lodge is to telephone or wire any additional contributions received for the home, and which have not been included in previous reports, so that a complete list can be tabulated on the anniversary night. The figures will be broadcast by radio, and also by telephones to all parts of the state, showing the success of the state home project.

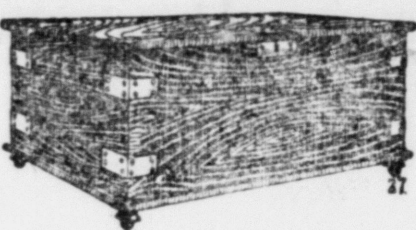

The Rushville lodge is planning to have a class for next Thursday and will assist in the observance. At this time a special effort will be made to have a large attendance present.

Word from the grand lodge officers stated that the Rushville lodge was in the lead over all other lodges of the state on contributions, figured on a per capita basis. The local lodge was the first in state to obtain subscriptions, and headed the list with more than \$700. They not only headed the list, but have kept ahead since the plan was first advanced.

The total of the contributions from all over the state will determine the possibilities of building and

DROP OF 35 DEGREES IN THE LAST 24 HOURS

Mercury Slides Downward, Reaching Low Mark of 22 Degrees Today—
Warmer Thursday

SNOW HEAVIER ELSEWHERE

A drop of 35 degrees in temperature was recorded in Rush county during the past 24 hours, according to Elwood Kirkwood, in charge of the government station at Maury.

The highest reached during Tuesday was 57 degrees, at mid-day, and during the afternoon a change in the weather took place, with the mercury beginning to decline. At 6:30 last night it had fallen to 45 degrees and at noon today had reached 22 degrees, making a total drop of 35 degrees since noon Tuesday.

Warmer weather is in sight for Thursday, according to the weather bureau, which predicts slightly colder tonight, but rising temperature tomorrow.

Reports from other sections of the state today stated that the snow-fall was heavy, although in Rush county it was generally light. Northern Rush county had more snow than in the vicinity of Rushville, and other sections west as far as Gwynneville, reported more snow.

Brazil, Ind., Feb. 11—The worst blizzard in seven years swept Brazil last night and early today, leaving ten inches of snow in its wake. Drifts two and three feet deep blocked travel on country roads. The temperature dropped to 16 degrees above zero.

JOEL WOLFE CORPS IN ANNUAL REPORT

Shows \$210.60 Received From All Sources During Year and Sum of \$238.46 Expanded

796 VISITS MADE TO SICK

Presentation of Flags to Boy Scouts and Schools Part of Corps Activities

The annual report of Joe Wolfe Corps of their work done during the past year, shows that \$210.60 has been received from all sources and \$238.46 has been expended. There has been 796 visits made to the sick and \$191.50 of relief other than money has been given.

From the general fund there has been paid for department per capita tax \$22.64; for the department Grand Army fund, \$10.00; Department flag fund for boy scouts, \$2.00; Soldiers' orphan's home Christmas fund, \$5.00; for flowers for sick and deceased Civil War veterans and one member who died, \$21.00; to the local Woman's Council of Rushville, \$5.00; to the Santa Claus fund of Rushville, \$2.00; to the Anti-Tuberculosis fund, \$3.00.

A large box of fruit was sent to the Lafayette Soldier's home, just before Christmas. Five dollars was donated to the Richmond Drum and Bugle Corps to help them attend the National convention. The money appropriated for the pedestal light is \$35 and is being held until the improvement is made in the City Park boulevard.

Relief has been given from the relief fund amounting to \$23.81. A large flag was presented the Graham school costing about \$7.00, and \$13.50 was expended for small flags carried by the school children on Decoration day. Small silk flags have been given for four world war soldiers funerals.

The fiftieth wedding anniversary of one of the charter members was remembered by a gift of a five dollar gold piece. A bouquet was taken to the hospital to a lady who was hurt in an auto accident. She was a stranger, but was a member of the W. R. C. in Chicago.

Many letters of sympathy have been sent the sick and the shut-ins. This order has been organized nearly 38 years and is always active in its good work. There are 73 members, several of whom do not live here. Mrs. Sarah Rardin is at the head of the organization this year.

FOR RILEY HOSPITAL SCHOOL

School Children to Make Contributions on Friday

Rushville public school children were reminded today of the recent appeal made in the schools here by Miss George Ann Schmid of Indianapolis, who came here in the interest of the Riley Memorial hospital school.

Valentine Day was set aside as the day for donations and contributions from the school children, so that funds could be raised in this manner to purchase school equipment. Miss Schmid is in charge of teaching the crippled children at the hospital, and there are no funds with which the school room can be equipped, and an appeal is made to school children to bring small donations on Valentine Day. Boxes for that purpose will be placed in all schools Friday, so that the gifts can be received.

PROGRESS IS MADE IN FOWL SURVEY

Twelve County Veterinarians are Working at Topmost Speed and Receiving Hearty Cooperation

URGED TO STUDY SYMPTOMS

Chicken Raisers Requested to Familiarize Themselves With Pest so They will Recognize It

The most satisfactory progress is being made in the fowl pest survey now under way to locate cases of the European fowl disease, if there are any, according to word received by Dr. N. G. Wickwire, federal veterinarian assigned to this county, and H. D. VanMatre, county agent, who is cooperating with him.

Twelve Rush county veterinarians, one for each township, are working at topmost speed in making the survey. Each one reports that every person visited by them is deeply interested in eradicating the fowl pest, not only from this county but from eight other eastern Indiana counties where a quarantine on poultry and poultry products is in effect.

"The cooperation from the farmers has been one hundred per cent plus," says a statement from those in charge of the campaign today. "Not only the farmers are manifesting a deep interest in the work, but every one seems to be deeply interested and is lending a helping hand."

Every chicken raiser is urged to study the symptoms, as outlined in Tuesday's Daily Republican, so that he will be able to diagnose the diseases of his own chickens and not take too much time of the veterinarian in explaining minor details. It is pointed out that speed in the survey is essential and farmers can be of immense value to the work if they will familiarize themselves with the symptoms so that they will recognize the fowl pest if it shows up in their herd before the veterinarian arrives.

All the eight other counties under quarantine are proceeding under the same fixed plan. However Rush county is fortunate in having a local veterinarian for each township. It was learned from County Agent Detrick at Connersville this morning that only four veterinarians were to be had for Fayette county, so far.

All state officials have the utmost confidence in all who are aiding in the work of fowl pest eradication. They likewise have some confidence in the people as a whole that they will respond willingly with their efforts in this work, the same as they have in the past under trying conditions. They are willing to inconvenience themselves during the quarantine so that they may get results. They don't want the fowl industry destroyed by this pest. They are anxious to strike a death blow, according to reports from all parts of the county, and thus save for the farmers a business that is worth \$1,750,000 a year.

Large Crowd of People Sees Opening Performance of High School Senior Class Play

JONES GETS INTO A MESS

The Way he Extricates Himself Provides Amusement for Audience—
A Capable Cast

"What Happened to Jones", the play given by the Seniors of the local high school Tuesday evening at the Graham Annex auditorium under the direction of Dorothy Hamrick, instructor in the high school, and Mrs. John Swain, was presented in a very creditable manner. It will be repeated again tonight at the auditorium.

The play was a three act comedy written by George Broadhurst and the scenes for the three acts were laid in New York City in the living room of Professor and Mrs. Goodly. The characters were exceptionally well chosen and each took his or her part splendidly. A well filled house greeted the players when the curtain went up for the first act.

The time of the play was the present and centered around the thoroughly educated family of Ebenezer Goodly, professor of Anatomy. Lamoine Perkins was the professor and Virginia Lucas was his wife, who was always taking care of her husband and her daughters, Minerva, Miss Gladys Newman; Marjorie, Miss Ruth Chadwick, and Cissy, ward of the Goodly's, Mary Frances Clore.

The family, in the first scene, was in a state of expectancy over the arrival of their brother and uncle, the Rev. Anthony Goodly, D. D., Hartwell Coons. He was a bishop of Ballarat, and his identity was confused with that of Jones, a hymn book salesman, played by Franklyn Miller. Jones, Prof. Goodly and Richard Heatherly, William Behr, who is in love with Marjorie, were attending a prize fight, when a policeman attempted to arrest them, and in the fracas Jones hits one of the policemen. They pursue the party to the home of the Professor where Jones dresses in the Bishop's clothes in order to disguise himself to avoid arrest by the policeman. Wilbur Walters takes the part of the policeman who enters the professor's house to search for the man who struck the officer.

The many different situations that Jones has to encounter in his disguise as the bishop, and his making love to Alvina Starlight, the part played by Virginia Arand, who is in

FIFTEEN WITNESSES ON FIRST DAY OF INQUIRY

Grand Jury Begins Investigation—
Wilson Shooting Reported to be First Matter Probed

NO TRIAL IN CIRCUIT COURT

The Rush county grand jury went into session this morning on the third floor of the court house, and they were instructed and sworn in by Judge Sparks.

Fifteen or more witnesses were among those ordered to appear today before the investigators, and it was not known whether the session would be completed today or Thursday.

Just what cases are being probed is not known and nothing definite will be forthcoming until the indictments have been served and the arrests made on the cases. It was intimated that the first thing to be taken up was the shooting of last Sunday, when Bert Wilson is charged with having fired a revolver at his wife, injuring her.

Business in the circuit court was quiet today and no cases were set for a hearing.

The jury which was used Monday, will be ordered again for service next Monday, as another state case is set for trial on the court calendar. It is the case of the state against Elwell, a farmer of Washington township, charged with assault and battery on his wife.

Minstrel Show Being Aired Out For An Early Showing

Down at Webb, they have taken the minstrel show out of the cedar chest and hung it out on the line to get rid of the moth ball odor, preparatory to presenting it again Wednesday night, February 25, at the Webb school.

"More magnificent, marvelous and stupendous than ever," says the advance publicity. "Most of the old timers who helped to make the show the huge success it was last year, with a bunch of new talent, that would be an added attraction to any show, will be in the line-up this year. It will be well worth the time and the trip down there to hear the new 'Queen of The Blues' sing all of the latest jazz hits."

Wins Reputation as a "Bill-less" Representative

Charles M. Trowbridge of Mays, joint representative from Rush and Henry counties, had the reputation of being a "bill-less" representative until a few days ago when he introduced his first measure, an administration measure, which gives the governor a right to remove prosecuting attorneys and county sheriffs for cause. He came to the session "bill-less," but at the request of House leaders, introduced the removal measure. He is chairman of the House committee on natural resources and in that capacity has had plenty of work to do without thinking up bills, he says. His picture appeared in the Indianapolis Star Tuesday.

Guards Cave

Brig. Gen. H. H. Denhardt, lieutenant governor of Kentucky, in charge of the military at Sand Cave during fight to free Floyd Collins from his subterranean prison. Denhardt ordered Johnny Gerald and Homer Collins, a brother, from the scene.

SHAFT LESS THAN 20 FEET FROM COLLINS

(Continued from Page One)

They fear to break in upon him. Inquiry being conducted into rumors that Collins' entombment is a grand hoax staged for purposes of publicity was to be resumed at 9:30 a. m. today.

William Burke Miller, newspaper reporter, testified before the court martial conducting the investigation, that he had seen Collins in the cave and touched him.

"I was threatened with death when I tried later to enter the cave," Miller said.

B. G. Fishback, rescue worker, testified Johnny Gerald had warned him not to enter the cave.

"Did you gather he did not want you to go into the cave?" the court asked.

"I did," the witness answered. Carmichael was certain his workers were in the home stretch in their digging operations. They have reached a gravel strata which scientists predict they would find just before striking the roof of the tunnel.

This, according to archeologists, forms the roof of a collapsed cavern. A slit through which the explorer crawled was a fault in the roof. The strata they are now working in affords comparatively easy going.

It is hoped the crevice below the floor will give them ingress to the

tunnel in which Collins lies without the tedious and dangerous labor of breaking through the actual cell roof.

When Collins is reached the rescuers will step back while Dr. W. B. Hazlett enters the passage and administers a stimulant.

Then will begin the task of freeing Collins from his cell. How long this will take is not known. There are several workers in the last crevices to reach Collins before the roof collapsed who say Collins' foot is free of the boulder which pinned him in the cave 13 days ago.

Persons who said they talked with Collins later stated he still was a prisoner of the rock.

Because work at the time was still unorganized, it is impossible to say definitely whether or not the boulder still rests on Collins' foot.

Radio tests which indicated last night that Collins was sleeping do not afford any means of actual communication.

Rushville is included in the list of cities seeking the state home, and encouraging word has reached here, because the local lodge has contributed unhesitatingly and did so without being forced into it with promises of obtaining the home.

The plan followed here was for each member of the lodge to contribute one day's earnings to the fund and of the nearly 500 members in the lodge, there are not a great many who have not as yet made contributions.

Many cities are holding back, making promises that they will donate large amounts if the home is located in their city, but in the case of Rushville, the lodge is first making the contributions, and will afterwards advance their plea for the home.

Ghosts of 1923

The Kokomo Tribune says that the motor bus has brought about a revolution in transportation and that it has come with amazing suddenness, in advocating action by the legislature to deal with the question.

There is nothing amazing or sudden about motor bus transportation. It has increased very materially in the past two years, but it was a vital problem two years ago, pressing for solution.

If it had been solved, as it should have been, by the legislature of 1923 changes in the law to meet changing conditions could have been very easily made now.

But the legislature two years ago very conveniently evaded its responsibility and the spectre of its evasion is back to haunt its predecessor.

The 1923 general assembly killed a bill to regulate busses because of the hue and cry that was set up against the interurban interests, who were supposed to be back of the proposed legislation.

There was no disguising the fact that the interurban companies were endeavoring to have such a law passed, and even though their interest in the matter was selfish, they were on the right track.

The merits of the question of motor bus regulation are too well known to need repeating here. It would not appeal to any fair person's sense of justice to permit one corporation to wear out roads paid for and maintained with taxes, without any supervision and without bearing any part of the expense, and on the other hand to compel another corporation to own, equip, maintain and pay taxes on its right-of-way, at the same time submitting to strict regulation of its business.

Nothing to Worry About

There is really no use of being cramped for space or rushed for time, take it from a University of Chicago astronomy professor, who estimates that a thousand-thousand-million years or perhaps a thousand-thousand thousand-thousand million will elapse before the world comes to an end.

This is the answer of science to the group of New York folks who brought down ridicule upon themselves and made the credulous nervous by predicting that the world was going to loop off into space on a certain date.

The discussion aroused by the New Yorkers was carried on by Prof. Ray Forest Moulton, who addressed the Rush County Chautauqua here last August and gave a local audience some conception of the vastness of the universe.

Mr. Earth will write finis on his planetary career when our sun passed too near another sun, the professor says. The resulting whirlpool or incandescent matter will consume the earth.

But there is little immediate danger of the sun interfering with the progress of other suns, even though a half billion others, some of them larger than our own sun, are running loose in our galaxy.

And there are other galaxies, too, probably a half billion of them, forming a super galaxy. Our own galaxy is an oval, ten times longer than it is wide, and its length is estimated at 300,000 times 5,865,696,000,000 miles.

In other words, we can all continue on our journey in pursuit of health, wealth and happiness until the end of our time on earth, without any interference on the part of the earth.

A real fox was killed on the R. E. Martin farm, south of the city yesterday. A fox is a rarity in this county and it is seldom that one is seen.

The local high school basketball team left this afternoon over the J. M. & I. railroad for Shelbyville where they will meet the quintet of the high school in that city tonight. The Rushville five has been playing a wonderful game this season and the followers of the sport here are expecting a victory. The team will line up as follows: Wilcoxin and Behout, forwards; McRoberts, center; Eubanks and Cameron, guards.

Willie Beale now holds the high score at the Social bowling alleys in West First street for five back.

After a two days session, the farmer's institute at Manilla closed Thursday afternoon, says the Shelbyville Democrat. At the morning session Dr. Frank H. Davis, a well known veterinarian of Rushville, addressed the institute and in the afternoon W. A. Alexander spoke.

The Misses Sally Henley, Lillian Righter, Lillian Henley and Mrs. W. P. Henley leave Friday, February 11, for Florida. They expect to be gone about six weeks. (Carthage correspondent.)

Miss Leah Oneal has returned from a short visit with Miss Dove Wyker in Connersville.

Mr. and Mrs. Samuel Innis left yesterday for Tampa, Fla., for an extended stay. They will spend a portion of the time in Havana.

Fred Alexander of Butterfield, Minn., is here for a few weeks visit with his mother, Mrs. Anna Alexander in West Third street.

Miss Helen Warring has resigned her position at the Rushville steam laundry on account of poor health.

Legal Patch, the fast four year old colt, bred and owned by Theodore Abercrombie, has been sold to eastern parties at a handsome price and was shipped by express to Lowell, Mass., today. William Dagler negotiated the sale.

William Wamsley of near New Salem went to Indianapolis yesterday afternoon for a visit with his son, Pearl Wamsley.

Theo. H. Reed & Son are paying the following prices for grain: wheat \$1.20; new corn, 55; new oats, 40. The following are the ruling prices in the Rushville market, corrected to date: spring chickens, per pound, 12c; hens on foot per pound, 12c; eggs per dozen, 24; butter 20; cattle \$3.00 to \$7.00; Hogs \$4.00 to \$9.00; Sheep \$3.50 to \$5.50.

Mrs. Amanda Macy, Mr. and Mrs. E. C. Macy and Mrs. Estella Branson of Richmond, Lon Gates and W. O. Folger of Carthage were entertained at dinner Wednesday by D. M. Presnalls. (Sumner correspondent.)

Will Jordan will leave soon with his brother Wesley Jordan for Oregon to work in the lumber business there. (Flatrock Correspondent.)

Hunt's Washington Letter

BY HARRY B. HUNT
NEA Service Writer

WASHINGTON—One-eyed Connelly, champion gate-crasher, would have had a hard time getting into the farewell costume ball given by Prince Gelasio Caetani, Italian ambassador.

For the prince had provided special protection against just that sort of visitor.

Despite the fact it was a masked affair, every arrival had to identify himself at the door, lift his mask and then wait until his name had been checked against a list of those who had been invited.

If the guests met all these tests they were permitted to mask again and enter.

If they didn't—but they went without having been in!

The procedure followed by Prince Caetani was made necessary by the increasing number of "society-crashers" in Washington.

Growing numbers of folks without invitations, but with dress suits and a polished front, have been "bumping in" on receptions and parties.

On some occasions the number of persons present at a given affair has been almost double the total of invited guests.

At one place, it is recounted, the "bumpers-in" had eaten up most of the refreshments before the honest-to-goodness guests arrived.

So when Caetani, who is credited with having stepped on the advance by blowing the top off an Italian mountain with dynamite.

prepared for his party, he set for himself the same slogan he did on that occasion—"They shall not pass." And they didn't.

As a result, the Caetani farewell party was one of the really exclusive "large" affairs given at the capital this winter.

Although officially the recent departure of Jules Jusserand, French ambassador, marked the high tide of regret for a departing envoy, Prince Caetani's going actually leaves more heartaches. For Don Gelasio is a handsome bachelor, dashing rather than dignified. His adventures, from railroad building with a construction gang in California to his heroic war exploits, clothed him in an aura of romance not equaled by any other member of the diplomatic corps.

Being unattached, matrimonial, he of course had an advantage over most of his diplomatic colleagues. As a result, wherever he went, he was the traditional "life of the party."

As a diplomat, Caetani's big work was to help get Uncle Sam's viewpoint straight with respect to the Fascisti government of Italy. This he seems to have done.

The true aim of Fascism, he told us, is "the ethical, social and political reform of Italy, along lines morally sound, politically practicable and conformable to the nature of the Italian people." We Fascisti prefer action to words, and my actions will be proof of my devotion, both toward Italy and the United States."

ECHOES FROM THE GENERAL ASSEMBLY

Indianapolis, Ind., Feb. 11—Lieutenant Governor Van Orman thanked Senator Cann, of Frankfort, for the gift of a marble slab to pound his gavel on.

"I would rather look at this than have it on me," said Van Orman. Senator Cann is a tombstone maker.

Speaker Leslie of the house hopes for a "big mortality rate" among bills in the lower branch of the state legislature during the next month.

"We did hope there would be fewer bills," he told the representatives as nineteen new bills were introduced at the session Monday.

"In case you don't know it, there are already 15,000 sections and sub-sections in the statutes of the state. It's getting to be a pretty big book."

He appointed Representatives Carlson and Kitch to "separate some of the legislative chaff from the grain."

One hundred thousand persons throughout the state will sign a petition against passage of Sunday blue laws by the state legislature, according to the prediction of Harold Lukens, representing the Religious Liberty Association and the Seventh Day Adventist church.

Lukens said today that 25,000 persons in Indianapolis have signed the petition, while 3,000 names are on petitions received from Muncie.

A petition circulated in Lafayette bears nearly 3,000 petitions, according to Lukens.

The petitions are aimed against the Kissinger house bill and the Leonard senate bill to increase the penalties on the present blue laws.

The state would carry its own insurance risk on all state buildings under the provisions of a bill introduced in the house by Representative Buchanan, of Indianapolis.

The bill would require all present fire insurance policies to be cancelled when the premium periods expire and would direct the state to establish a sinking fund to protect buildings from fire or other damage.

Buchanan says the total of insurance premium paid by the state over a period of years would be greater than the actual fire loss of state institutions as shown by the experience of the past.

The Republican state committee measure which would provide that the poll at general elections shall be the registration at the following election struck a snag today when it was pointed out that precinct boundaries in city and county elections are not the same.

As a consequence the measure will either be withdrawn or amended to read that the registration at primary elections shall be the registration at the following general election. The measure also eliminates the precinct registration boards and provides for a general registration board to sit from the fifty-ninth day to the twenty-ninth day before the general election to register voters not voting in the preceding primary.

The proposed change would save \$50,000 on registration in Marion county alone, according to Republican leaders.

DOORS TO OPEN AT SIX BELLS

Rushville ticket holders for the game at Connersville Friday night are instructed to be at the north door of the gym which is the nearest to the seats reserved for them. The door will open at six o'clock, according to Mr. Myers, the principal, who has sent word to Mr. Butler. The curtain raiser will begin promptly at 7 o'clock, between the Rushville and Connersville second teams.

THE OFFICIALS

Officials announced for these games are Schultz and Tittsworth for the preliminary game and for the main bout, Miller and Best.

Game Here Saturday

The Junior high school team will play the Jackson township Junior high team Saturday night at the Graham Annex gym. The curtain raiser will be played between the Bean Shooters of the Washington school, and a colored team from Franklin. No advance in price, a thin dime.

Forgot to report the results of that Junior game last week. Rushville won from Homer 23 to 10, and the Bean Shooters downed their opponents, which happened to be a team from Shelbyville, and not Franklin, as previously stated. Franklin will be here this week.

MOSCOW GOES FAST

That Moscow Independent team is stepping along fast these days. After winning several tourneys, they added another one Saturday over in Shelby county, defeating all comers at the Moral gym. Even the far famed Red Birds of New Palestine were victims. Moscow has won 12 out of the 14 last games played, having lost the other two by two point margins, and one of them was an overtime game to Columbus.

SHOULD BE CAUTIOUS

Greensburg newspapers are red hot in their comments over what they are going to do in the Shelbyville sectionals. The Times refers to Shelbyville as a fizzle this year, and say they are in a class with Manila, Morristown, and some of the others. Its poor policy to "play" with fizzes because they are liable to "go off". Greensburg mustn't forget that it is always that gun that "isn't" loaded that usually does the damage.

ALSO CAREFUL

Then Greensburg had better play better ball than they did down at North Vernon Saturday night, or Meltzer, Wilson or Bengal will knock 'em off first. The score at Vernon was 41 to 40, with Greensburg on the 40 end.

Greencastle still has the brick, according to a message broadcasted by Pass and Shoot. No doubt they expect to keep it for that new gym.

Loosen Up That Cold With Musterole

Have Musterole handy when a cold starts. It has all of the advantages of grandmother's mustard plaster WITH-OUT the blister. You just apply it with the fingers. First you feel a warm tingle as the healing ointment penetrates the pores, then comes a soothing, cooling sensation and quick relief.

Made of pure oil of mustard and other simple ingredients, Musterole is recommended by many nurses and doctors. Try Musterole for bronchitis, sore throat, stiff neck, pleurisy, rheumatism, lumbago, croup, asthma, neuralgia, congestion, pains and aches of the back or joints, sore muscles, sprains, bruises, chilblains, frostbitten feet, colds of the chest. It may prevent pneumonia and "flu."

To Mothers: Musterole is also made in milder form for babies and small children. Ask for Children's Musterole.

they are getting ready to build over there.

Pass and Shoot in the Green-castle Banner has a good idea. He runs all of the births at the end of his column, probably showing the future material for basketball teams.

Word over here says that Keller, one of the star players on the Connersville team, met with some conflict last week, and has quit school. If that is the case, then perhaps Newbold's loss with tonsillitis will make the game more on a level basis for the two teams.

"Be it ever so humble, there's no edge like oak," says George Purcell, down at Vincennes, and he probably knows.

"Tame them Lions" and "Finish Franklin" are the week-end slogans that Side Lights is using this week over at Connersville. They will find that tamin' business plenty tough, because the Lions are goin' to open up on 'em Friday night—just wait and see.

Davison will probably fill Newbold's place at forward, if he is sick and he is working out that way this week. Practice is cut short on account of the Senior class play two nights, but even at that, the team is showing up good, and is rarin' to go.

TICKETS GO SLOW

Tickets for the game are going slow over here. Of the 400 sent in advance only a little more than 100 have been taken. Funny isn't it? Last year when Connersville couldn't accommodate any number at all, everyone wanted to go, and now when they can take care of a crowd, no one wants to go.

Newcastle is still chirping about their easy schedule drawing, but sometimes the easy ones are the hardest. Don't let overconfidence on that schedule upset your plans for the state, Markin' 'em up, because Hittin' 'em wants to see you at the Expo building the middle of next month.

Most of the Big Sixteen teams selected in the Indianapolis Star, place Connersville and Rushville as the possible winners at the Richmond regional, and it looks like the pickers know what they are about. It is up to the Lions to go clear through.

The Blue Birds of Carthage have a couple of hard ones this week. They play at Blue Ridge Friday night, meeting Moscow, and on Saturday night, Knightstown will be their opponent at Carthage.

HERE'S ANOTHER ONE IN A HAPPY MOOD

Vincennes cannot complain about the tourney schedules. This is the first time Vincennes has had an easy tourney sked.—Casual Comment, Vincennes.

So far, Washington doesn't know where they are going to play in the sectional tourney. It should make little difference because any team that holds Vincennes to one point, should be a runner away up in the state. They probably play at Bedford or Linton.

HERE'S A PLACE TO GO ON FRIDAY

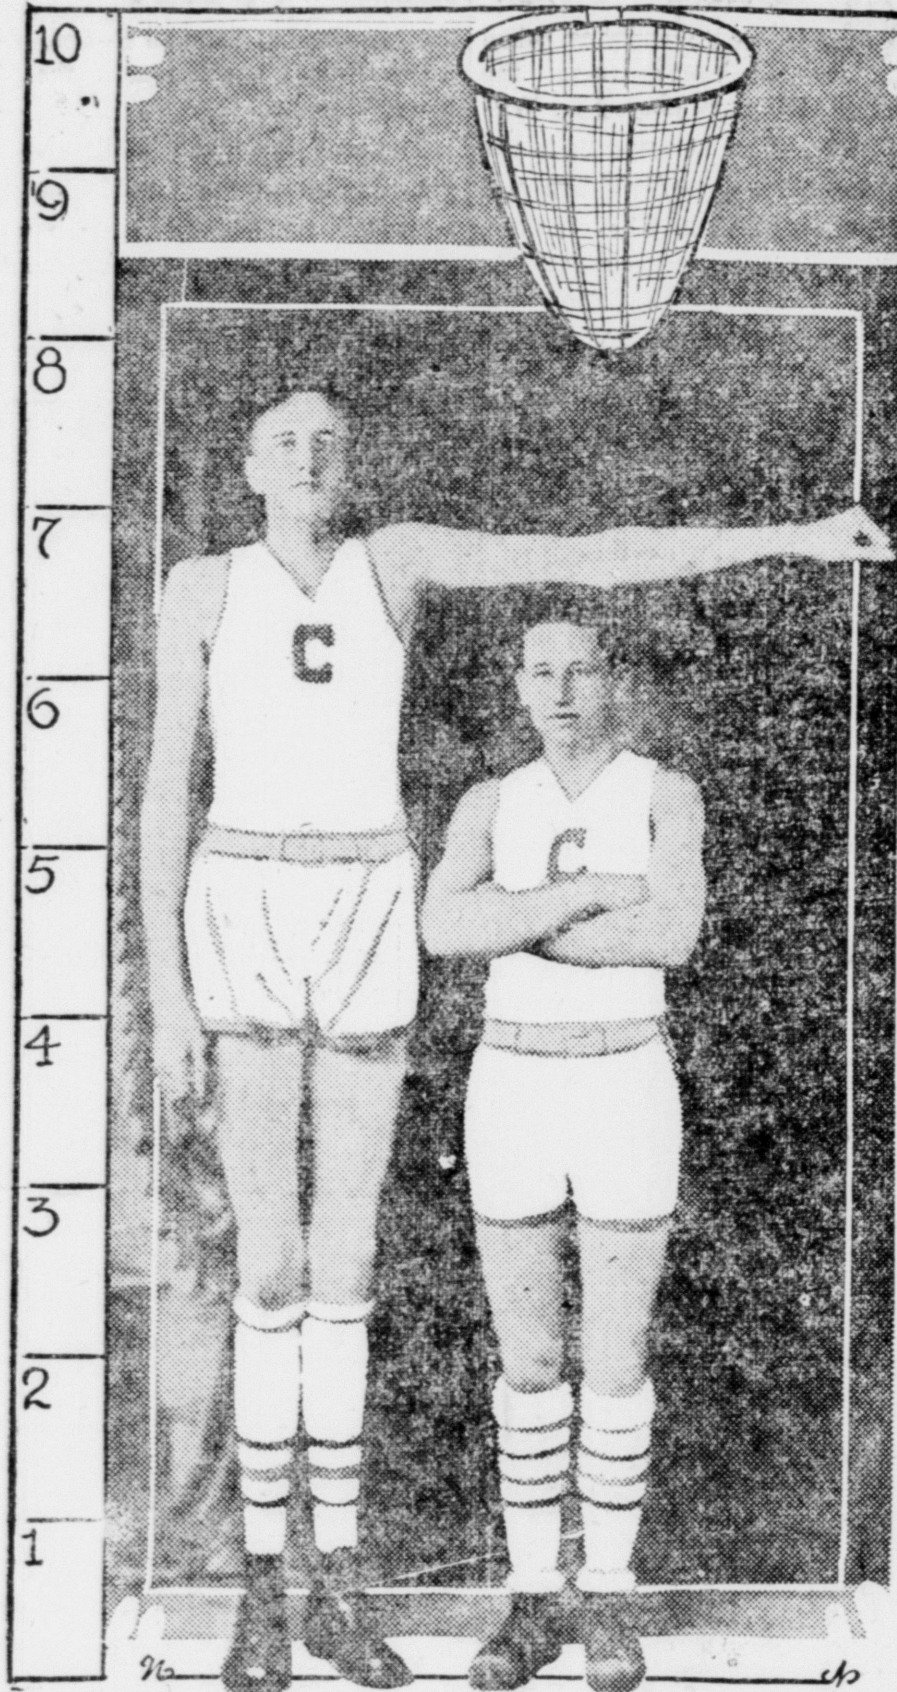

Dear Hittin' 'em:—Webb takes on fast company Friday night when Arlington comes over for a game. This is the third game of the season for the two teams. Arlington was victorious on their floor early in the season and again at the Carthage tourney. The Webb boys are out to fight for revenge. This is sure to be a real game so if you can't go to the Rushville game, come out to Webb. We'd appreciate it. Yours J. M. R.

We Play Them On This Friday

That's just the way of it. Now that Washington is getting a game with Rushville for next year, here comes Mitchell and wants a game too. Podunk will be next.—Vincennes Sun.

And what is more, we're goin' to NIK THOSE IKMIKS

Here's Basketball Giant

Presenting George Kennedy, claimed to be the tallest basketball center in the game. George stands 7 feet 10 inches, and is a member of the Chillicothe (Mo.) Business College quintet. Appearing with Kennedy is Captain Howard, a six-footer, who stacks up as a midjet beside the giant pivot man.

Two Famous Ring Partnerships

By HENRY L. FARRELL
(United Press Sports Editor)

New York, Feb. 11—Jack Dempsey's retirement from the ring, which is bound to come soon, will break up one of the most famous partnerships that have been known to sports. The champion has announced that there partnership will dissolve on May 29.

Dempsey's rise from a hobo to a millionaire heavyweight champion of the world is as romantic a story as could be imagined by a fiction writer, and with him on most every step of the journey was Jack Kearns.

There are a dozen who claim to have been the discover of Jack Dempsey. There are a score who boast that they had a part in turning him from a novice into one of the finest pieces of fighting machinery the ring ever has seen.

But Dempsey graciously admits that it was Jack Kearns who gave him his real start and who picked the way along the hard road that brought fame and a million dollars to each of them.

It is not generally known that it was Eddie Kane, who hasn't spoken to Kearns for years, who introduced Dempsey to Kearns. Dempsey was looking around for a manager, and Kane told him he didn't have time to do his business for him. He was engaged in a lot of other promotions at the time and wasn't doing much with boxing. Kane and Kearns were friendly then and Kane suggested to Dempsey that he hook up with Kearns, who didn't have any good fighters at the time.

Something happened that caused Kane and Kearns to fall out and they never have made up. When negotiations were being carried on in Chicago for the Dempsey-Gibbons fight in Shelby, Kane was on one floor of the hotel and Kearns was on another. Kane refused to talk to Kearns and the promoters had to wear out an elevator running back and forth from the rooms of the two managers.

Kearns, that something might be done to get the fight away from Shelby before it was too late, but the plans in mind turned out later to be impractical.

Considering the ways in which the trails all crossed at various times, it is not unusual that the Gibbons-Kane partnership should be the only one that could compare to the Dempsey-Kearns combination.

In each partnership there is just as much sentiment as there is business. Numerous attempts have been made in the past to get Gibbons away from Kane and many efforts have been made to sour Dempsey on Kearns, but to all offers to break away, Dempsey and Gibbons always have replied—"He's my manager and I'm going to stick to him."

Bloomington, Ind.—Indiana wrestlers blanked Northwestern grapplers here last night in a Big Ten wrestling meet 23 to 0. Hoosier mat men took falls in the 115, 125 and 145 pound division, and decisions in the other contests.

London—Ten seconds after the contest had been stopped to save him from excessive punishment, Teddie Sheppard, young British boxer, collapsed and died in the ring. Sheppard was fighting Pop Humphreys and he was being punished so in the sixth round that the referee stopped the contest. Sheppard shook hands with the referee and dropped to the floor.

Kansas City, Mo.—Scores of gunners were here today for the twenty-first annual interstate trap shoot which gets under way Monday. Included in the list of early arrivals are W. G. Warren, Chicago and Billy Fountain, Philadelphia.

IN THE BASKET

South Bend—Butler crashed through Notre Dame's defense in the second half and defeated the local team 32 to 23. The Irish led at the end of the first half, 18 to 13.

Lafayette—John Dies, well known Washington township, Tippecanoe county, farmer living near Americus, was seriously injured when he fell from a cattle truck near Lafayette.

"Feet of Clay," Princess

Twenty young goddesses of the sea, riding speed-churned waves on leaping surf boards, crossing the line abreast, bounding dangerously for waves lashed to a fury by powerful motors, provide a scene which combines novelty and thrills and open with a bang Cecil B. DeMille's latest production for Paramount, "Feet of Clay."

Light, frothy, humorous, continuously entertaining are the opening scenes between the principals. Rod La Rocque, Vert Reynolds, Victor Varconi, Richardo Cortez, Julia Payne, Theodore Kosloff and Robert Edson are featured players. The beach stuff moves fast and combines drama and color. From this sequence the story proceeds into the serious part of the plot rapidly. This scene forms an excellent prelude to a situation where La Rocque is maimed in a fight with a shark while protecting Miss Reynolds, who has the leading feminine role. The incident provides the starting point for an interesting flock of situations, the central one of which being the necessity of a wife having to support her husband.

The cast in this production is hand-picked. The "Arrow" Collar boy and the girl with "that school girl complexion" set the standard for good looks among the minor players. "Feet of Clay" returns to all of the old DeMille sure-fire methods. It is luxury, logical, dramatic, pictorial story.

You're sure to expect much from Cecil DeMille after "Triumph" and "The Ten Commandments" and if you but take a trip to the Princess theatre today and Thursday, be promise you'll not be disappointed.

"The Lonely Road," Coming
Should a wife be a "clinging vine"?
Modern husbands with modern ideas say no.

But there are still quite a number of men of the old school who take the opposite view.

Such a young husband marries Katherine MacDonald in her latest screen vehicle, "The Lonely Road," the first National picture at the Castle theatre Thursday, but when he tries to impress her forcibly with his old-fashioned ideas the trouble begins.

For Katherine MacDonald, as Betty Antin in this very human drama of American life, is anything but an old-fashioned girl.

Betty is domestic by nature, but when her husband tried to run the household, things begin to happen. The clinging vine idea gets a decided setback in "The Lonely Road," which furnishes some of the best

screen entertainment provided this year. This is another B. P. Schulberg production.

The Sons of Veteran's Auxiliary enjoyed a Lincoln Day program last Thursday afternoon at their regular meeting in the G. A. R. room of the court house.

Mrs. John A. Shields and son John of Seymour, Ind., were luncheon guests of Mrs. Will O. Feudner while Mr. Shields spoke to the Kiwanis and Rotary clubs and the junior and senior high schools Tuesday afternoon.

Miss Elizabeth Waite entertained the Mary E. Logan class of the United Presbyterian Sabbath school, at her home Tuesday evening. After the business meeting a social time was spent in valentine games, a valentine box was opened and the hostess carried out the same idea in dainty refreshments served.

Mrs. Fred Arbuckle entertained the members of the Wednesday Afternoon Bridge club and four extra tables of guests Tuesday afternoon at her home in West Second street. A very pleasant afternoon was enjoyed by the guests and as the concluding feature after the card games refreshments were served.

The Pastor's Aid Society of the Main Street Christian church held their regular meeting Tuesday afternoon in the parlors of the church. Mrs. L. C. Overdorf sang a beautiful solo and during the business session the members voted to have a candy sale at the Castle and Princess theatres, Saturday Feb. 21.

The Girl's and boy's basketball teams of the Webb high school were royally entertained Tuesday evening with a dinner party at the Lollis hotel, the members of the high school faculty being the entertainers. After the dinner at the hotel they were taken to the Rushville high school play at the Graham Annex auditorium and then were served to refreshments at the Carol Candy Kitchen.

The War Mothers entertained Tuesday with a luncheon at the home of Mrs. Margaret English, honoring Mrs. Ada Stoops' and Mrs. English's birthdays. A delicious chicken luncheon was served and was greatly enjoyed by the guests. The afternoon was spent informally. The War Mothers wish to thank the people who made it possible for them to send four hundred pounds of clothing to the Near East Relief.

The Woman's Auxiliary of the Noble Township Farmer's association held a splendid meeting Tuesday evening in the New Salem school building. The following program was given: piano duet, Esther and Ruth Geise; talk, "Preparing Eggs for Setting," Mrs. Walter Norris; talk, "Setting and Caring for the Incubator," Mrs. Charles Carney; violin solo, Marianne Holman; talk, "Feeding Chickens," Mrs. Cliff Stevens. Each talk was followed by an open discussion. The program closed with a musical monologue by Mary Lois Brickler.

During the business session officers for the coming year were elected: president, Mrs. Charles Carney; vice president, Mrs. Willard King; secretary-treasurer, Mrs. Cliff Stevens; program committee, Mrs. Wal-

ter Wilk, chairman, Mrs. Frank Wilson and Miss Maye Weir. The club's next meeting will be held the first Tuesday in March and the subject for discussion will be "House-cleaning." It was decided at this meeting that there will be no dues paid and every woman in the township is welcome to attend these meetings.

Mr. and Mrs. Elijah Fry of Falmouth, observed their Golden Wedding anniversary at their home Tuesday, when more than one hundred friends, neighbors and relatives gathered during the day to assist in the observance.

The couple was married 50 years ago just north of Falmouth, and they have spent their entire married life in that community, living a portion of the time in Fayette county, across the Rush county line.

On the happy occasion of their anniversary, the couple was honored with the presence of all members of their immediate family, excepting one grandchild. All six children, born to the union, were present, as well as six of the seven grandchildren and three great grandchildren.

The six children are Mrs. E. R. Jeffrey and Mrs. Erma Moore of Connersville, Mrs. C. C. Brown of Laurel, Mrs. Clint Rees, Clyde Fry and Miss Mariah Fry, all of Falmouth.

The reception given in their honor was held in the afternoon from two to five, and again at night from 7:30 until ten. At the noon hour a dinner was served for the family and guests from a distance.

Mr. and Mrs. Fry received many gifts of flowers and other remembrances. Both are in good health, and will no doubt live to see many more anniversaries. Mr. Fry is 71 years of age and Mrs. Fry is 69.

Among the guests from a distance, who assisted in the wedding anniversary celebration, were the following: Mrs. T. P. Butler of Richmond, Mrs. Mollie Johnson of Cambridge City, Mrs. Phoebe Hacker of East St. Louis, Ill., Mr. and Mrs. M. G. Overhiser, Mrs. Amanda McCready, Mrs. Elizabeth Maze, Mr. and Mrs. Elmer Schweir and Paul Dawson, all of Indianapolis.

MID-WINTER PICNIC

The First Presbyterian church will hold a mid-winter picnic in the basement of the church Thursday night, which all the members and friends of the church are urged to attend. Bring one article of food, a few sandwiches, whatever dishes you want to use and your own silverware. Food should be on the table at six o'clock, ready to eat at six-thirty.

The speaker for the evening will be the Rev. Harry B. Foster of Chicago. There will be music, singing and a social good time. This is in the nature of a pitchin' supper. The Band of workers will meet in the parlors of the church at four o'clock and remain for the supper.

BIRTHDAY PARTY

The mid-week service at St. Paul's Methodist Episcopal church Thursday evening will be in the form of a birthday party, partly to celebrate the birth anniversary of Lincoln, and also in memory of other great men who were born in February.

Among those having birthday's this month, who will be included in the program, besides Lincoln, will be Washington, Longfellow, Lowell, Dickens, Edison, Ruskin, Robert Burns, General Sherman and others.

RECEIVES BOX OF FRUIT

Mrs. J. B. Pusey has received a fine box of fruit from her friends, Mr. and Mrs. J. A. Smith of Lakeland, Fla. The box consisted of selected oranges and tangerines, some of the oranges weighing one pound and some of the tangerines weighing a half pound.

THEY LEARNED WHAT HAPPENED TO JONES

Continued from Page One
love with the Rev. Anthony Goodly and who wonders if she has changed any in the last thirty years, furnishes much amusement for the remainder of the two scenes.

When the bishop arrives at the

home of his brother, Jones takes him up to his room, to prevent the remainder of the family from detecting who he is. Rev. Goodly is taken for an escaped lunatic from the sanitarium, the part played by Wilbur Walters, when he appears in the living room of the Goodly's, wrapped in an Indian blanket. The lunatic,

who was perfectly safe, thought he was an Indian, but was taken in custody by the superintendent of the sanitarium, Donnell Power, after causing much excitement in the professor's home.

The way the hymn book salesman gets out of all the trouble he has caused in the Goodly's home is very

clever, and may be seen again tonight at the auditorium by the people who did not witness the production last night.

Helma, a Swedish maid in the home of Prof. and Mrs. Goodly, was one of the characters in the play, and the part was played by Ruth Johnson in an excellent way.

All the players were excellent in their different parts and their stage actions were fine, each one acting as old timers.

The high school orchestra provided the music during the acts and after the production, being under the leadership of Prof. D. S. McIntosh, director of music in the high school.

Why America Must Have More Paved Highways

Permanent roads are a good investment—not an expense

Almost every section of the United States is confronted by a traffic problem.

Month by month this problem is becoming more and more serious.

Hundreds of cars pass a given point every hour on many of our state and county roads. Down-town city streets are jammed with traffic.

Think, too, how narrow many of our roads are, and how comparatively few paved highways there are in proportion to the steadily increasing number of cars.

If the motor vehicle is to continue giving the economic service of which it is capable, we must have more Concrete highways and widen those near large centers of population.

Every citizen should discuss highway needs of his community with his local authorities.

Your highway officials will do their part if given your support.

Why postpone meeting this pressing need?

An early start means early relief.

Boils!

S.S.S. will rid you of boils, pimples, blackheads and skin eruptions!

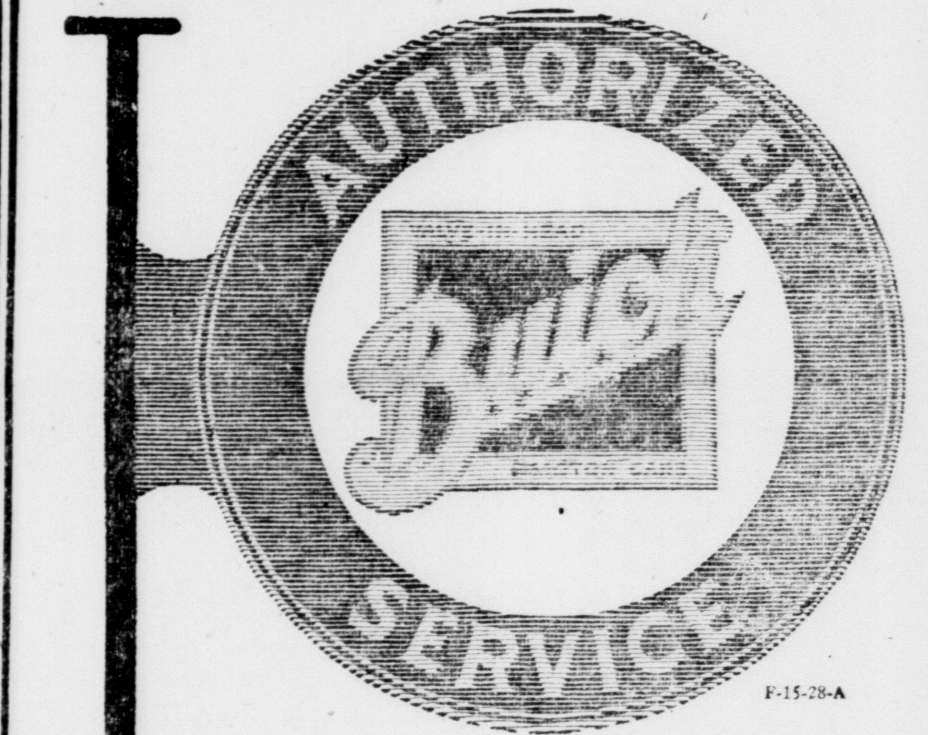

DON'T CLOSE your eyes to the warning which Nature gives when angry, painful boils appear on your neck, face or other parts of your body. Boils, pimples and so-called skin disorders are the result of an impoverished condition of the blood and are not to be trifled with.

It is nothing more than folly to expect to get absolute relief from the use of local treatments, such as ointments, salves, etc. Such remedies may afford temporary relief but you want more than relief; you want a remedy which will rid you forever of the torturing disorder. And the one remedy which has no equal is S.S.S.

S.S.S. stops boils and keeps them from coming. S.S.S. builds blood-power! That is what makes fighting blood. Fighting blood destroys impurities. It fights boils! It fights skin eruptions—pimples, blackheads, eczema! It always wins! S.S.S. has been known since 1826 as one of the greatest blood builders, blood cleansers and system strengtheners ever produced. There are no unproven theories about S.S.S., the scientific results of each of its purely vegetable medicinal ingredients are admitted by authorities. Begin taking S.S.S. today and clear your skin of those blood disorders!

S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.

BUS REGULATION BILL GIVEN O. K.

Moorehead Measure, Passed by Senate Places Motor Busses Under Public Service Commission

AUTO BANDITRY BILL DIES

Senate Votes to Make it Special Order of Business on Day After Legislature Adjourns

(By United Press)

Indianapolis, Ind., Feb. 11—After an hour's sharp debate in which charges of existence of powerful lobbies for and against the measure were hurled back and forth, the senate today passed the Moorehead bus regulation bill.

The senate also killed the bill sponsored by Senator Batt of Terre Haute to provide the death penalty for automobile banditry.

Senator Nejd, republican floor leader, moved that the bill be made a special order of business for March 10.

Senator Batt protested that the legislature will be adjourned by that day.

The action of Senator Nejd was adopted and the bill was killed.

"Under that bill a negro, who stole a couple of chickens and drove away in a second hand diver, would be put to death," stated Senator Shank of Angola.

The Moorehead bill, which provides for regulation of motor busses and trucks, acting as common carriers on Indiana highways, by the public service commission, received a vote of 33 to 15.

The bill now goes to the house.

"There has been no more consistent lobbying against people's interests in the legislature, than there has been by opponents of this measure," Senator Moorehead of Indianapolis, sponsor of the bill, declared.

Senator Brown who led the opposition, said that most of the lobbyists were from railroad and traction interests trying to have the bill passed.

He said that the measure would only eliminate competition among bus operators and as soon as the competition is eliminated the rates will be raised.

Without a word of opposition the bill introduced by Senator Cooper of Vigo to prohibit the wearing of religious garb by teachers in the public schools passed to third reading in the house.

A similar bill was killed in the

GIRL'S CLUB LEADERS SCHOOL SET FOR FRIDAY

At Least Eight and Possibly Nine Townships Will be Represented—to Outline Year's Work

TO DISCUSS PROJECT WORK

The Girl's Club leaders school will be held at Rushville Friday at 10 a. m. at the court house. Miss Neva Stephenson from Purdue University will be in charge of this school. Eight townships have already made arrangements for club work this coming summer and it is expected that possibly one other township will have a representative at this meeting.

During the corn show two or more representative women from each township met in Rushville and decided to carry on the first year's sewing project during the coming summer. It is the general plan of this project work that each woman's organization carrying on the work will send two representatives to Rushville once a month who will receive instructions from the lady sent from Purdue University. These township representatives will then return to their townships where they will explain in detail the work as suggested at the county meeting.

This work has been carried on for a number of years in many counties of the state and has received enthusiastic report where carried on. The first one of these schools for the women's project work will be conducted at Rushville Wednesday, March 11, at 10 a. m.

HAND CAUGHT IN AUTO WHEEL

James Robert Barry, Age Two Years, Suffers Deep Scalp Wound

James Robert, the two year old son of Mr. and Mrs. Edmund Barry, was painfully injured Tuesday, in a peculiar mishap. Mrs. Barry was cranking an automobile, with the rear wheels jacked up. The boy was near one of the wheels when it began to spin, and he grabbed at it.

His hand was caught in it, and he was thrown to the ground on his head. A deep gash, requiring two stitches, was cut in his head, and his hand was badly smashed. It was feared at first that his skull was fractured, but it was believed today that he will suffer no ill effects, although the injuries are painful.

SHAFT LESS THAN 20 FEET FROM COLLINS

H. T. Carmichael, in Charge of Cave Rescue Work, Expects to Reach Entombed Man by Friday Noon

CREVICE MAY LEAD TO PRISON

Drill Running Ahead of Biggers Locates it—No More Radio Tests Can be Made

Cave City, Ky., Feb. 11—No more radio tests can be made to ascertain whether Floyd Collins' seal lives.

The electric light bulb on Collins' chest has burned out or was jarred from its socket, thus listeners at the cave's mouth cannot determine with their amplifiers whether Collins is breathing or not.

The new shaft is sinking toward Collins at record speed, H. T. Carmichael, in charge of the digging reported. It has reached a depth of more than 42 feet, leaving less than twenty feet to go.

Carmichael is convinced his men will pierce Collins' cell not later than Friday noon.

Five feet below the bottom of the shaft being sunk toward him is a four foot crevice which may mean the early release of Collins, through this underground prison.

This was ascertained today by a drill running ahead of the diggers to keep them informed of the conditions they must meet.

It was found the odor of kerosene oil gas which was so strong in the bottom of the shaft last night emanated from an eight inch crevice in the side wall. The gas is being used in an effort to find a second and rear entrance to Collins' rock cell.

This and the presence of cave crickets in the dirt removed gave rise to hopes of Collins' early release.

After a hurried conference early today, H. T. Carmichael in direct charge of the pit, asserted they would seek to reach the large crevice beneath the floor rather than widen the narrow one uncovered. Geologists believe the smaller crevice leads into the one beneath the floor and that this connects directly with Sand Cave.

Use of dynamite, started last night to hasten work, was abandoned today as the workers drew nearer the roof of Collins' cell.

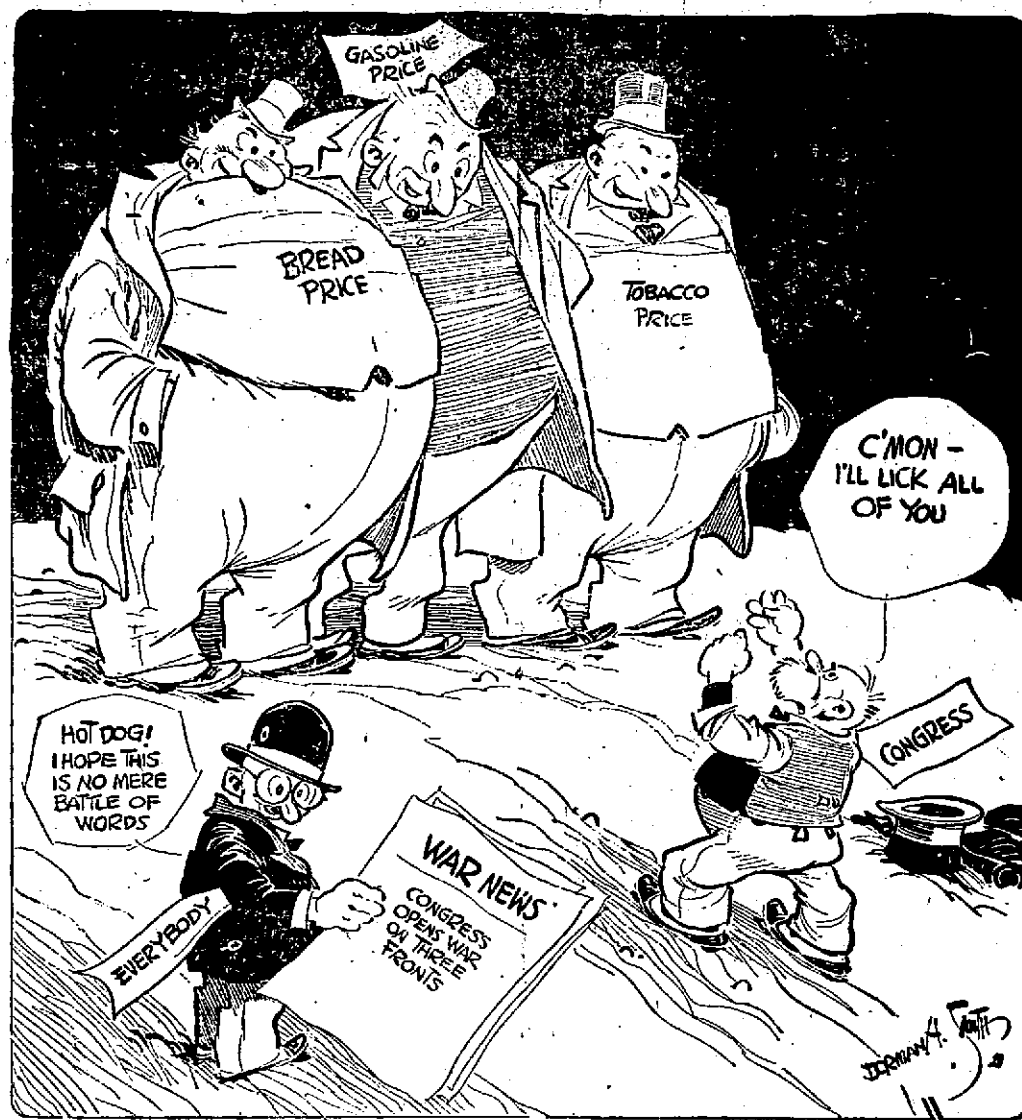

TIME TO GET BIDS POSTPONED

Estimates on Shelhorn Road Will Not Be Received on March 2

Bids for the Fred Shelhorn road in Anderson township will not be received at the March meeting of the county commissioners, as planned at the February session, because it was found that viewers had to be reappointed, and they will not report until March 2 the day for the regular March session. The board ordered the auditor to advertise for bids and then discovered the other steps were necessary, making necessary the postponement of the time for receiving bids.

The Rhodes petition from Center township was for the appointment of an assistant road superintendent instead of being for a new road, as previously announced. The appointment will not be announced until the appointee gives bond as required.

RUSHVILLE LODGE LEADING IN STATE

Pledges to Knights of Pythias State Home Project Ahead of all Others, on Per Capita Basis

61ST ANNIVERSARY FEB. 19

Definite Amounts Raised Throughout State Will be Announced in Connection with Observance

Rushville Knights of Pythias are leading in the state home project, according to word received from drive to raise funds with which to build a home for orphans and aged members of the order.

The reports of all lodges in the state are to be given in by Saturday and the figures will be compiled by Grand Lodge officers, so that definite amounts can be ready to be announced on next Thursday, February 19.

On that date the Pythias lodge will celebrate the 61st anniversary of the founding of the order, and all lodges of the state have been asked to meet on that night and participate in the observance of the anniversary.

Grand lodge officers who are within close distance of Indianapolis, have been asked to attend the meeting in that city, and in all other lodges of the state an effort is being made to have a Pythian Home Page rank class for initiation.

On that night, each lodge is to telephone or wire any additional contributions received for the home, and which have not been included in previous reports, so that a complete list can be tabulated on the anniversary night. The figures will be broadcast by radio, and also by telephones to all parts of the state, showing the success of the state home project.

The Rushville lodge is planning to have a class for next Thursday and will assist in the observance. At this time a special effort will be made to have a large attendance present.

Word from the grand lodge officers stated that the Rushville lodge was in the lead over all other lodges of the state on contributions, figured on a per capita basis. The local lodge was the first in state to obtain subscriptions, and headed the list with more than \$700. They not only headed the list, but have kept ahead since the plan was first advanced.

The total of the contributions from all over the state will determine the possibilities of building and

THE TREASURE CHEST

The Daily Republican's treasure chest was opened this morning, and this time it revealed the face that if Alvah Newhouse will call in person at the office, he will be cited to the sum of \$1.75.

There are no strings to these checks which will be forthcoming, and at any time your name might be found in the chest. It will pay you to watch the chest whenever it appears.

The annual report of Joe Wolfe Corps of their work done during the past year, shows that \$210.60 has been received from all sources and \$238.46 has been expended. There has been 796 visits made to the sick, 541 bouquets carried to the sick and \$191.50 of relief other than money has been given.

DROP OF 35 DEGREES IN THE LAST 24 HOURS

Mercury Slides Downward, Reaching Low Mark of 22 Degrees Today—Warmer Thursday

SNOW HEAVIER ELSEWHERE

A drop of 35 degrees in temperature was recorded in Rush county during the past 24 hours, according to Elwood Kirkwood, in charge of the government station at Mauney.

The highest reached during Tuesday was 57 degrees, at mid-day, and during the afternoon a change in the weather took place, with the mercury beginning to decline. At 6:30 last night it had fallen to 45 degrees and at noon today had reached 22 degrees, making a total drop of 35 degrees since noon Tuesday.

Warmer weather is in sight for Thursday, according to the weather bureau, which predicts slightly colder tonight, but rising temperature tomorrow.

Reports from other sections of the state today stated that the snowfall was heavy, although in Rush county it was generally light. Northern Rush county had more snow than in the vicinity of Rushville, and other sections west as far as Gwynneville, reported more snow.

Brazil, Ind., Feb. 11—The worst blizzard in seven years swept Brazil last night and early today, leaving ten inches of snow in its wake. Drifts two and three feet deep blocked travel on country roads. The temperature dropped to 16 degrees above zero.

JOEL WOLFE CORPS IN ANNUAL REPORT

Shows \$210.60 Received From All Sources During Year and Sum of \$238.46 Expended

796 VISITS MADE TO SICK

Presentation of Flags to Boy Scouts and Schools Part of Corps Activities

The annual report of Joe Wolfe Corps of their work done during the past year, shows that \$210.60 has been received from all sources and \$238.46 has been expended. There has been 796 visits made to the sick, 541 bouquets carried to the sick and \$191.50 of relief other than money has been given.

From the general fund there has been paid for department per capita tax \$22.64; for the department Grand Army fund, \$10.00; Department flag fund for boy scouts, \$2.00; Soldiers orphan's home Christmas fund, \$5.00; for flowers for sick and deceased Civil War veterans and one member who died, \$21.00; to the local Woman's Council of Rushville, \$5.00; to the Santa Claus fund of Rushville, \$2.00; to the Anti-Tuberculosis fund, \$3.00.

A large box of fruit was sent to the Lafayette Soldier's home, just before Christmas. Five dollars was donated to the Richmond Drum and Bugle Corps to help them attend the National convention. The money appropriated for the pedestal light is \$35 and is being held until the improvement is made in the City Park boulevard.

Relief has been given from the relief fund amounting to \$23.81. A large flag was presented the Graham school costing about \$7.00, and \$13.50 was expended for small flags carried by the school children on Decoration day. Small silk flags have been given for four world war soldiers funerals.

The fiftieth wedding anniversary of one of the charter members was remembered by a gift of a five dollar gold piece. A bouquet was taken to the hospital to a lady who was hurt in an auto accident. She was a stranger, but was a member of the W. R. C. in Chicago.

Many letters of sympathy have been sent the sick and the shut-ins. This order has been organized nearly 38 years and is always active in its good work. There are 73 members, several of whom do not live here. Mrs. Sarah Rardin is at the head of the organization this year.

FOR RILEY HOSPITAL SCHOOL

School Children to Make Contributions on Friday

Rushville public school children were reminded today of the recent appeal made in the schools here by Miss George Ann Schmid of Indianapolis, who came here in the interest of the Riley Memorial hospital school.

Valentine Day was set aside as the day for donations and contributions from the school children, so that funds could be raised in this manner to purchase school equipment. Miss Schmid is in charge of teaching the crippled children at the hospital, and there are no funds with which the school room can be equipped, and an appeal is made to school children to bring small donations on Valentine Day. Boxes for that purpose will be placed in all schools Friday, so that the gifts can be received.

PROGRESS IS MADE IN FOWL SURVEY

Twelve County Veterinarians are Working at Topmost Speed and Receiving Hearty Cooperation

URGED TO STUDY SYMPTOMS

Chicken Raisers Requested to Familiarize Themselves With Pest, so They will Recognize It

The most satisfactory progress is being made in the fowl pest survey now under way to locate cases of the European fowl disease, if there are any, according to word received by Dr. N. G. Wickwire, federal veterinarian assigned to this county, and H. D. VanMatre, county agent, who is cooperating with him.

Twelve Rush county veterinarians, one for each township, are working at topmost speed in making the survey. Each one reports that every person visited by them is deeply interested in eradicating the fowl pest, not only from this county but from eight other eastern Indiana counties where a quarantine on poultry and poultry products is in effect.

"The cooperation from the farmers has been one hundred per cent plus," says a statement from those in charge of the campaign today. "Not only the farmers are manifesting a deep interest in the work, but every one seems to be deeply interested and is lending a helping hand."

Every chicken raiser is urged to study the symptoms, as outlined in Tuesday's Daily Republican, so that he will be able to diagnose the diseases of his own chickens and not take too much time of the veterinarian in explaining minor details. It is pointed out that speed in the survey is essential and farmers can be of immense value to the work if they will familiarize themselves with the symptoms so that they will recognize the fowl pest if it shows up in their herd before the veterinarian arrives.

All the eight other counties under quarantine are proceeding under the same fixed plan. However Rush county is fortunate in having a local veterinarian for each township. It was learned from County Agent Detrick at Connersville this morning that only four veterinarians were to be had for Fayette county, so far.

All state officials have the utmost confidence in all who are aiding in the work of fowl pest eradication. They likewise have some confidence in the people as a whole that they will respond willingly with their efforts in this work, the same as they have in the past under trying conditions. They are willing to inconvenience themselves during the quarantine so that they may get results. They don't want the fowl industry destroyed by this pest. They are anxious to strike a death blow, according to reports from all parts of the county, and thus save for the farmers a business that is worth \$1,750,000 a year.

TAKEN TO HOSPITAL

Mrs. James Moore, 128 East Fourth street, was taken to Memorial hospital in Connersville today for treatment, preparatory to undergoing an operation.

THEY LEARNED WHAT HAPPENED TO JONES

Large Crowd of People Sees Opening Performance of High School Senior Class Play

JONES GETS INTO A MESS

The Way he Extricates Himself Provides Amusement for Audience—A Capable Cast

"What Happened to Jones", the play given by the Seniors of the local high school Tuesday evening at the Graham Annex auditorium under the direction of Dorothy Hamrick, instructor in the high school, and Mrs. John Swain, was presented in a very creditable manner. It will be repeated again tonight at the auditorium.

The play was a three act comedy written by George Broadhurst and the scenes for the three acts were laid in New York City in the living room of Professor and Mrs. Goodly. The characters were exceptionally well chosen and each took his or her part splendidly. A well filled house greeted the players when the curtain went up for the first act.

The time of the play was the present and centered around the thoroughly educated family of Ebenezer Goodly, professor of Anatomy. Lorraine Perkins was the professor and Virginia Lucas was his wife, who was always taking care of her husband and her daughters, Minerva, Miss Gladys Newman; Marjorie, Miss Ruth Chadwick, and Cissy, ward of the Goodlys, Mary Frances Cline.

The family, in the first scene, was in a state of expectancy over the arrival of their brother and uncle, the Rev. Anthony Goodly, D. D., Hartwell Coons. He was a bishop of Ballarat, and his identity was confused with that of Jones, a hymn book salesman, played by Franklin Miller Jones. Prof. Goodly and Richard Heatherly, William Behr, who is in love with Marjorie, were attending a prize fight, when a policeman attempted to arrest them, and in the fracas Jones hits one of the policemen. They pursue the party to the home of the Professor where Jones dresses in the Bishop's clothes in order to disguise himself to avoid arrest by the policeman. Wilbur Walters takes the part of the policeman who enters the professor's house to search for the man who struck the officer.

The many different situations that Jones has to encounter in his disguise as the bishop, and his making love to Alvin Starlight, the part played by Virginia Arand, who is in

FIFTEEN WITNESSES ON FIRST DAY OF INQUIRY

Grand Jury Begins Investigation—Wilson Shooting Reported to be First Matter Probed

NO TRIAL IN CIRCUIT COURT

The Rush county grand jury went into session this morning on the third floor of the court house, and they were instructed and sworn in by Judge Sparks.

Fifteen or more witnesses were among those ordered to appear today before the investigators, and it was not known whether the session would be completed today or Thursday.

Just what cases are being probed is not known and nothing definite will be forthcoming until the indictments have been served and the arrests made on the cases. It was intimated that the first thing to be taken up was the shooting of last Sunday, when Bert Wilson is charged with having fired a revolver at his wife, injuring her.

Business in the circuit court was quiet today and no cases were set for a hearing.

The jury which was used Monday, will be ordered again for service next Monday, as another state case, is set for trial on the court calendar. It is the case of the state against Elwell, a farmer of Washington township, charged with assault and battery on his wife.

BUS REGULATION BILL GIVEN U. K.

Continued from Page One

senate before it reached second reading. The bill is expected to meet vigorous opposition when it comes up for passage.

Three administration measures today had the approval of one branch of the legislature and were sent to the other branch for consideration.

The Pittenger bills to place in the general fund of the state treasury all revenues received by state departments and to make the budget advisory committee a permanent body were passed by the house late Tuesday.

Representatives Pittenger, Republican floor leader, explained that the two bills were intended to aid in an economical and business-like administration of state affairs.

He said the bill for consolidation of funds would enable the governor to make a complete reckoning on the floor of the legislature every two years.

Both bills were passed without a dissenting vote and were sent to the senate today.

The administration bill for the establishment of a state library and historical department to take over the work of several existing bodies was passed in the senate by a vote of 35 to 9.

In the vote on the measure, two Republican Senators, Quillen of Indianapolis and Lambert of Columbus, bolted party ranks and opposed the bill.

Establishment of the library and historical department was recommended by the survey committee which studied changes in the state government at the request of Governor Jackson.

The senate killed the Leonard bill to require county commissioners to accept four bids on materials for road work. Senator Neff, who is a contractor, said the bill would open the way for graft and corruption and would not accomplish the purposes of its author.

By unanimous vote the senate passed the Harrison bill requiring utilities to keep all their accounts in Indiana.

The bill is aimed to prevent foreign corporations from blocking investigations by the state public service commission by keeping their books out of the state.

Representatives Pittenger introduced in the house the administration bill to repeal the special tax levy for the universities and other institutions.

For what was thought to be the first time in the history of the Indiana legislature, a lobbyist was hailed before the house Tuesday afternoon and required to apologize to the speaker for disrespectful remarks.

Eugene Ford of Lebanon, president of the Indiana Chiropractors' Association, had a tilt with Speaker Leslie in the corridor of the capitol after the battle on the chiropractic bill and was reported to have accused Leslie of "double crossing him."

The house moved to punish Ford and he was brought in to make a public apology to Leslie.

At the joint meeting last night representatives of the Indianapolis chamber of commerce asked inclusion of a \$20,000 appropriation for floodlighting the Soldiers and Sailors monument here.

L. C. Loughry, secretary of the public service commission, sought to have the commission's appropriation increased from \$125,000 to \$200,000.

Representatives of the school for the deaf and the state board of charities also asked slight increases.

L. N. Hines, president of the state normal at Terre Haute, asked a specific appropriation of \$200,000 for the construction of a physical education building at the normal.

He pointed out that the normal had not received a specific appropriation since 1909 and that the total of its specific appropriations for thirty years was only \$183,000.

Business men of Terre Haute, he said, would furnish the ground for the proposed physical education building.

RATIFIES AMENDMENT

Madison, Wis., Feb. 11—Today Wisconsin joined the states ratifying the child labor amendment, when Wisconsin passed the Padway measure by a vote of 65 to 26. The senate adopted the resolution last week 19 to 10.

It cleans with astonishing speed—a tubful of clothes in 3 to 7 minutes; or in an hour just twice as many clothes as any other washer!

A marvel in thoroughness—even on wristbands, cuffs, and collars. Amazing in the vigoriveness with which it cleans blankets, work clothes, and the tenderness with which it washes lingerie, lace and linens. Safer even than hand methods!

The miracle washer—try it. Have the Maytag Man show you how easy and simple it works. He'll bring it right to your home and wash everything that's soiled. No obligation at all. Phone without delay for appointment.

Minstrel Show Being Aired Out For An Early Showing

Down at Webb, they have taken the minstrel show out of the cedar chest and hung it out on the line to get rid of the moth ball odor, preparatory to presenting it again Wednesday night, February 25, at the Webb school.

"More magnificent, marvelous and stupendous than ever," says the advance publicity. "Most of the old timers who helped to make the show the huge success it was last year, with a bunch of new talent, that would be an added attraction to any show, will be in the line-up this year. It will be well worth the time and the trip down there to hear the new 'Queen of the Blues' sing all of the latest jazz hits."

Wins Reputation as a "Bill-less" Representative

Charles M. Trowbridge of Mays, joint representative from Rush and Henry counties, had the reputation of being a "bill-less" representative until a few days ago when he introduced his first measure, an administration measure, which gives the governor a right to remove, prosecuting attorneys and county sheriffs for cause. He came to the session "bill-less", but at the request of House leaders, introduced the removal measure. He is chairman of the House committee on natural resources and in that capacity has had plenty of work to do without thinking up bills, he says. His picture appeared in the Indianapolis Star Tuesday.

Guards Cave

Brig. Gen. H. H. Denhardt, lieutenant governor of Kentucky, in charge of the military at Sand Cave during fight to free Floyd Collins from his subterranean prison. Denhardt ordered Johnny Gerald and Homer Collins, a brother, from the scene.

SHAFT LESS THAN 20 FEET FROM COLLINS

(Continued from Page One)

They fear to break in upon him. Inquiry being conducted into rumors that Collins' entombment is a grand hoax staged for purposes of publicity was to be resumed at 9:30 a. m., today.

William Burke Miller, newspaper reporter, testified before the court martial conducting the investigation, that he had seen Collins in the cave and touched him.

"I was threatened with death when I tried later to enter the cave," Miller said.

B. G. Fishback, rescue worker, testified Johnny Gerald had warned him not to enter the cave.

"Did you gather he did not want you to go into the cave?" the court asked.

"I did," the witness answered.

Carmichael was certain his workers were in the home stretch in their digging operations. They have reached a gravel strata which scientists predict they would find just before striking the roof of the tunnel.

This, according to archeologists, forms the roof of a collapsed cavern. A slit through which the explorer crawled was a fault in the roof.

The strata they are now working in affords comparatively easy going.

It is hoped the crevice below the floor will give them ingress to the

tunnel in which Collins lies without the tedious and dangerous labor of breaking through the actual cell roof.

When Collins is reached the rescuers will step back while Dr. W. B. Hazlett enters the passage and administers a stimulant.

Then will begin the task of freeing Collins from his cell. How long this will take is not known. There are several workers in the last crew to reach Collins before the roof collapsed who say Collins' foot is free of the boulder which pinned him in the cave 13 days ago.

Persons who said they talked with Collins later stated he still was a prisoner of the rock.

Because work at the time was still unorganized, it is impossible to say definitely whether or not the boulder still rests on Collins' foot.

Radio tests which indicated last night that Collins was sleeping do not afford any means of actual communication.

RUSHVILLE LODGE LEADING IN STATE

(Continued from Page One)

maintaining the state home. The decision as to the location of the building site will not be made until October, and all most every city in the state has launched a campaign to obtain the home.

Rushville is included in the list of cities seeking the state home, and encouraging word has reached here, because the local lodge has contributed unhesitatingly and did so without being forced into it with promises of obtaining the home.

The plan followed here was for each member of the lodge to contribute one day's earnings to the fund and of the nearly 500 members in the lodge, there are not a great many who have not as yet made contributions.

Many cities are holding back, making promises that they will donate large amounts if the home is located in their city, but in the case of Rushville, the lodge is first making the contributions, and will afterwards advance their plea for the home.

BIBLE THOUGHT

FOR TODAY

The Love That Saves—For

God so loved the world, that

he gave his only begotten Son,

that whosoever believeth in him

should not perish, but have

everlasting life. John 3:16.

PRAYER

"O Love that will not let me go

I rest my weary soul on Thee;

I give Thee back the life I owe,

That in Thine ocean depths its

flow

May richer, fuller be."

Ghosts of 1923

The Kokomo Tribune says that

the motor bus has brought about a

revolution in transportation and that

it has come with amazing sudden-

ness, in advocating action by the

legislature to deal with the question.

There is nothing amazing or sud-

den about motor bus transportation.

It has increased very materially in

the past two years, but it was a vi-

tal problem two years ago, press-

ing for solution.

If it had been solved, as it should

have been, by the legislature of 1923

changes in the law to meet chang-

ing conditions could have been very

easily made now.

But the legislature two years

ago very conveniently evaded its re-

sponsibility and the spectre of its

evasion is back to haunt its pre-

decessor.

The 1923 general assembly killed

a bill to regulate busses because

of the hue and cry that was set up

against the interurban interests,

who were supposed to be back of the

proposed legislation.

There was no disguising the fact

that the interurban companies were

endeavoring to have such a law

passed, and even though their inter-

est in the matter was selfish, they

were on the right track.

The merits of the question of mo-

tor bus regulation are too well

known to need repeating here. It

would not appeal to any fair per-

son's sense of justice to permit one

corporation to wear out roads paid

for and maintained with taxes, with-

out any supervision and without

bearing any part of the expense, and

on the other hand to compel another

corporation to own, equip, maintain

and pay taxes on its right-of-way, at

the same time submitting to strict

Nothing to Worry About

There is really no use of being
cramped for space or rushed for
time, take it from a University of
Chicago astronomy professor, who
estimates that a thousand-thous-
and-million years or perhaps a thou-
sand-thousand thousand thousand
million will elapse before the world
comes to an end.This is the answer of science to
the group of New York folks who
brought down ridicule upon them-
selves and made the credulous ner-
vous by predicting that the world
was going to leap off into space on
a certain date.The discussion aroused by the
New Yorkers was carried on by
Prof. Ray Forest Moulton, who ad-
dressed the Rush County Chautau-
que here last August and gave a lo-
cal audience some conception of the
vastness of the universe.Mr. Earth will write finis on his
planetary career when our sun
passed too near another sun, the
professor says. The resulting whirl-
pool or incandescent matter will
consume the earth.But there is little immediate dan-
ger of the sun interfering with the
progress of other suns, even though
a half billion others, some of them
larger than our own sun, are run-
ning loose in our galaxy.And there are other galaxies, too,
probably a half billion of them,
forming a super galaxy. Our own
galaxy is an oval, ten times longer
than it is wide, and its length is
estimated at 300,000 times 3,600-
600,000,000 miles.In other words, we can all con-
tinue on our journey in pursuit of
health, wealth and happiness until
the end of our time on earth, with-
out any interference on the part of
the earth.FIFTEEN YEARS

GENERAL ASSEMBLYIndianapolis, Ind., Feb. 11.—Lieut-
enant Governor Van Orman thank-
ed Senator Cann, of Frankfort, for
the gift of a marble slab to pound
his gavel on."I would rather look at this than
have it on me," said Van Orman.
Senator Cann is a tombstone
maker.Speaker Leslie of the house hopes
for a "big mortality rate" among
bills in the lower branch of the
state legislature during the next
month."We did hope there would be few-
er bills," he told the representatives
as nineteen new bills were intro-
duced at the session Monday."In case you don't know it, there
are already 15,000 sections and
sub-sections in the statutes of the
state. It's getting to be a pretty big
book."He appointed Representatives
Carlson and Kitch to "separate some
of the legislative chaff from the
grain."One hundred thousand persons
throughout the state will sign a pe-
tition against passage of Sunday
blue laws by the state legislature,
according to the prediction of Har-
old Lukens, representing the Religi-
ous Liberty Association and the
Seventh Day Adventist church.Lukens said today that 25,000
persons in Indianapolis have signed
the petition, while 3,000 names are
on petitions received from Muncie.A petition circulated in Lafayette
bears nearly 3,000 petitions, ac-
cording to Lukens.The petitions are aimed against
the Kissinger house bill and the Le-
onard senate bill to increase the pe-
nalties on the present blue laws.The state would carry its own in-
surance risk on all state buildings
under the provisions of a bill intro-
duced in the house by Representa-
tive Buchanan, of Indianapolis.The bill would require all present
fire insurance policies to be cancell-
ed when the premium periods expire
and would direct the state to estab-
lish a sinking fund to protect build-
ings from fire or other damage.Buchanan says the total of insur-
ance premium paid by the state over
a period of years would be greater
than the actual fire loss of state in-
stitutions as shown by the exper-
ience of the past.The Republican state committee
measure which would provide that
the poll at general elections shall be
the registration at the following el-
ection struck a snag today when it
was pointed out that precinct bound-
aries in city and county elections
are not the same.As a consequence the measure
will either be withdrawn or amended
to read that the registration at pri-
mary elections shall be the registra-
tion at the following general election.The measure also eliminates the
precinct registration boards and pro-
vides for a general registration
board to sit from the fifty-ninth
day to the twenty-ninth day before
the general election to register vot-
ers not voting in the preceding pri-
mary.The proposed change would save
\$50,000 on registration in Marion
county alone, according to Republi-
can leaders.

ribs broken; fourteen years ago my
right leg; eleven years ago I nearly
went over with typhoid fever and
since then have had awful stomach

gas most all the time. I would have
colic attacks so bad as to become
unconscious. No medicine helped me
and doctors advised an operation.
One day talking with a stranger he
recommended Mayr's Wonderful Re-

DOORS TO OPEN AT SIX BELLS

Rushville ticket holders for the game at Connersville Friday night are instructed to be at the north door of the gym which is the nearest to the seats reserved for them. The door will open at six o'clock, according to Mr. Myers, the principal, who has sent word to Mr. Butler. The curtain raiser will begin promptly at 7 o'clock, between the Rushville and Connersville second teams.

THE OFFICIALS

Officials announced for these games are Schultz and Tisworth for the preliminary game and for the main bout, Miller and Best.

Game Here Saturday

The Junior high school team will play the Jackson township Junior high team Saturday night at the Graham Annex gym. The curtain raiser will be played between the Bean Shooters of the Washington school, and a colored team from Franklin. No advance in price, a thin dime.

Forgot to report the results of that Junior game last week. Rushville won from Homer 23 to 10, and the Bean Shooters downed their opponents, which happened to be a team from Shelbyville, and not Franklin, as previously stated. Franklin will be here this week.

MOSCOW GOES FAST

That Moscow Independent team is stepping along fast these days. After winning several tournaments, they added another one Saturday over in Shelby county, defeating all comers at the Moral gym. Even the far famed Red Birds of New Palestine were victims. Moscow has won 12 out of the 14 last games played, having lost the other two by two point margins, and one of them was an overtime game to Columbus.

SHOULD BE CAUTIOUS

Greensburg newspapers are red hot in their comments over what they are going to do in the Shelbyville sectionals. The Times refers to Shelbyville as a fizzle this year, and say they are in a class with Manila, Morristown, and some of the others. Its poor policy to "play" with fizzes because they are liable to "go off". Greensburg mustn't forget that it is always that gun that "isn't" loaded that usually does the damage.

ALSO CAREFUL

Then Greensburg had better play better than they did down at North Vernon Saturday night, or Meltzer, Wilson or Bengal will knock 'em off first. The score at Vernon was 41 to 40, with Greensburg on the 40 end.

Greencastle still has the brick, according to a message broadcasted by Pass and Shoot. No doubt they expect to keep it for that new gym.

Loosen Up That Cold With Musterole

Have Musterole handy when a cold starts. It has all of the advantages of grandmother's mustard plaster WITH-OUT the blister. You just apply it with the fingers. First you feel a warm tingle as the healing ointment penetrates the pores, then comes a soothing, cooling sensation and quick relief.

Made of pure oil of mustard and other simple ingredients, Musterole is recommended by many nurses and doctors. Try Musterole for bronchitis, sore throat, stiff neck, pleurisy, rheumatism, lumbago, croup, asthma, neuralgia, congestion, pains and aches of the back or joints, sore muscles, sprains, bruises, chilblains, frost-bitten feet, colds of the chest. It may prevent pneumonia and "flu."

To Mothers: Musterole is also made in milder form for babies and small children. Ask for Children's Musterole.

they are getting ready to build over there.

Pass and Shoot in the Green-castle Banner has a good idea. He runs all of the births at the end of his column, probably showing the future material for basketball teams.

Word over here says that Keller, one of the star players on the Connersville team, met with some conflict last week, and has quit school. If that is the case, then perhaps Newbold's loss with tonsillitis will make the game more on a level basis for the two teams.

"Be it ever so humble, there's no edge like one," says George Purcell, down at Vincennes, and he probably knows.

"Tame them Lions" and "Finish Franklin" are the week-end slogans that Side Lights is using this week over at Connersville. They will find that tamin' business plenty tough, because the Lions are goin' to open up on 'em Friday night—just wait and see.

Davison will probably fill Newbold's place at forward, if he is sick and he is working out that way this week. Practice is cut short on account of the Senior class play two nights, but even at that, the team is showing up good, and is rarin' to go.

TICKETS GO SLOW

Tickets for the game are going slow over here. Of the 400 sent in advance only a little more than 100 have been taken. Funny isn't it? Last year when Connersville couldn't accommodate any number at all, everyone wanted to go, and now when they can take care of a crowd, no one wants to go.

Newcastle is still chirping about their easy schedule drawing, but sometimes the easy ones are the hardest. Don't let overconfidence on that schedule upset your plans for the state, Markin 'em up, because Hitin' 'em wants to see you at the Expo building the middle of next month.

Most of the Big Sixteen teams selected in the Indianapolis Star, place Connersville and Rushville as the possible winners at the Richmond regional, and it looks like the pickers know what they are about. It is up to the Lions to go clear through.

The Blue Birds of Carthage have a couple of hard ones this week. They play at Blue Ridge Friday night, meeting Moscow, and on Saturday night, Knightstown will be their opponent at Carthage.

HERE'S ANOTHER ONE IN A HAPPY MOOD

Vincennes cannot complain about the tourney schedules. This is the first time Vincennes has had an easy tourney sked.—Castal Comment, Vincennes.

So far, Washington doesn't know where they are going to play in the sectional tourney. It should make little difference because any team that holds Vincennes to one point, should be a runner away up in the state. They probably play at Bedford or Linton.

HERE'S A PLACE TO GO ON FRIDAY

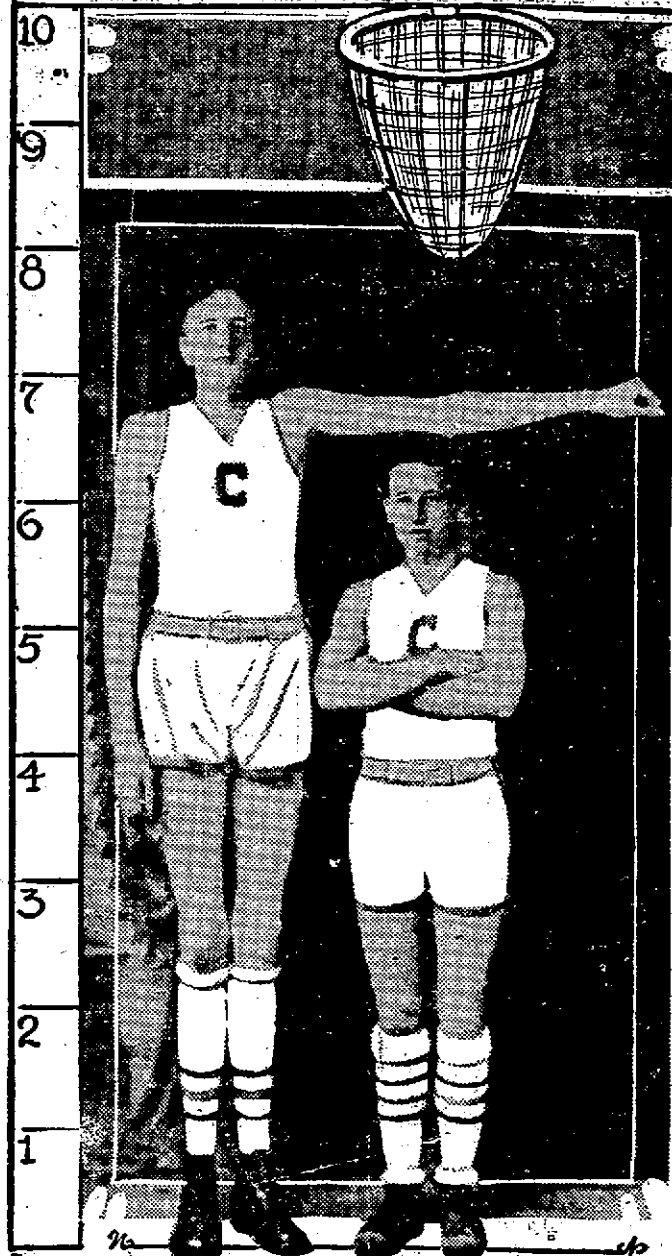

Dear Hitin' 'em:—Webb takes on fast company Friday night when Arlington comes over for a game. This is the third game of the season for the two teams. Arlington was victorious on their floor early in the season and again at the Carthage tourney. The Webb boys are out to fight for revenge. This is sure to be a real game so if you can't go to the Rushville game, come out to Webb. We'd appreciate it.

We Play Them On This Friday

That's just the way of it. Now that Washington is getting a game with Rushville for next year, here comes Mitchell and wants a game too. Podunk will be next.—Vincennes Sun.

And what is more, we're goin' to NIK THOSE IKKKS

Here's Basketball Giant

Presenting George Kennedy, claimed to be the tallest basketball center in the game. George stands 7 feet 10 inches, and is a member of the Chillicothe (Mo.) Business College quintet. Appearing with Kennedy is Captain Howard, a six-footer, who stacks up as a midget beside the giant pivot man.

Two Famous Ring Partnerships

By HENRY L. FARRELL
(United Press Sports Editor)

New York, Feb. 11—Jack Dempsey's retirement from the ring, which is bound to come soon, will break up one of the most famous partnerships that have been known to sports. The champion has announced that there partnership will dissolve on May 20.

Dempsey's rise from a hobo to a millionaire heavyweight champion of the world is as romantic a story as could be imagined by a fiction writer, and with him on most every step of the journey was Jack Kearns.

There are a dozen who claim to have been the discover of Jack Dempsey. There are a score who boast that they had a part in turning him from a novice into one of the finest pieces of fighting machinery the ring ever has seen.

But Dempsey graciously admits that it was Jack Kearns who gave him his real start and who picked the way along the hard road that brought fame and a million dollars to each of them.

It is not generally known that it was Eddie Kane, who hasn't spoken to Kearns for years, who introduced Dempsey to Kearns. Dempsey was looking around for a manager and Kane told him he didn't have time to do his business for him. He was engaged in a lot of other promotions at the time and wasn't doing much with boxing. Kane and Kearns were friendly then and Kane suggested to Dempsey that he hook up with Kearns, who didn't have any good fighters at the time.

Something happened that caused Kane and Kearns to fall out and they never have made up. When negotiations were being carried on in Chicago for the Dempsey-Gibbons fight in Shelby, Kane was on one floor of the hotel and Kearns was on another. Kane refused to talk to Kearns and the promoters had to wear out an elevator running back and forth from the rooms of the two managers.

Kane and Dempsey always remained friendly. Dempsey remarked several times before the Shelby fight—and he meant it too—that it was a crime that Kane and Gibbons were not going to get anything out of it. Dempsey even suggested, and so did

Kearns, that something might be done to get the fight away from Shelby before it was too late, but the plans in mind turned out later to be impractical.

Considering the ways in which the trails all crossed at various times, it is not unusual that the Gibbons-Kane partnership should be the only one that could compare to the Dempsey-Kearns combination.

In each partnership there is just as much sentiment as there is business. Numerous attempts have been made in the past to get Gibbons away from Kane and many efforts have been made to sour Dempsey on Kearns, but to all offers, to break away, Dempsey and Gibbons always have replied—"He's my manager and I'm going to stick to him."

SPORT CHATTER

Bloomington, Ind.—Indiana wrestlers blanked Northwestern grapplers here last night in a Big Ten wrestling meet 23 to 0. Hoosier mat men took falls in the 115, 125 and 145 pound divisions, and decisions in the other contests.

London—Ten seconds after the contest had been stopped to save him from excessive punishment, Teddie Sheppard, young British boxer, collapsed and, died, in the ring. Sheppard was fighting Pop Humphreys and he was being punished so in the sixth round that the referee stopped the contest. Sheppard shook hands with the referee and dropped to the floor.

Kansas City, Mo.—Scores of gunners were here today for the twenty-first annual interstate trap shoot which gets under way Monday. Included in the list of early arrivals are W. G. Warren, Chicago and Billy Fountain, Philadelphia.

IN THE BASKET

South Bend—Butler crashed through Notre Dame's defense in the second half and defeated the local team 32 to 23. The Irish led at the end of the first half, 18 to 13.

Lafayette—John Dies, well known Washington township, Tippecanoe county, farmer living near Americus, was seriously injured when he fell from a cattle truck near Lafayette.

"Feet of Clay," Princess

Twenty young goddesses of the sea, riding speed-churned waves on leaping turf boards, crossing the line abreast, homing dangerously, waves lashed to a fury by powerful motors, provide a scene which combines novelty and thrills and open with a bang Cecil B. DeMille's latest production for Paramount, "Feet of Clay."

Light, frothy, humorous, continuously entertaining are the opening scenes between the principals. Rod La Rocque, Vert Reynolds, Victor Varconi, Richardo Cortez, Julia Payne, Theodore Kosloff and Robert Edson are featured players. The beach stuff moves fast and combines drama and color. From this sequence the story proceeds into the serious part of the plot rapidly. This scene forms an excellent prelude to a situation where La Rocque is maimed in a fight with a shark while protecting Miss Reynolds, who has the leading feminine role. The incident provides the starting point for an interesting flock of situations, the central one of which being the necessity of a wife having to support her husband.

The cast in this production is hand-picked. The "Arrow Collar" boy and the girl with "that school-girl complexion" set the standard for good looks among the minor players. "Feet of Clay" returns to all of the old DeMille sure-fire methods. It is luxury, logical, dramatic, pictorial story.

You're sure to expect much from Cecil DeMille after "Triumph" and "The Ten Commandments" and if you but take a trip to the Princess theatre today and Thursday, he promises you'll not be disappointed.

"The Lonely Road," Coming

Should a wife be a "clinging vine?" Modern husbands with modern ideas say no.

But there are still quite a number of men of the old school who take the opposite view.

Such a young husband marries Katherine MacDonald in her latest screen vehicle, "The Lonely Road," the first National picture at the Castle theatre Thursday, but when he tries to impress her forcibly with his old-fashioned ideas the trouble begins.

For Katherine MacDonald, as Betty Austin in this very human drama of American life, is anything but an old-fashioned girl.

Betty is domestic by nature, but when her husband tried to run the household, things begin to happen. The clinging vine idea gets a decided setback in "The Lonely Road," which furnishes some of the best

screen entertainment provided this year. This is another B. P. Schulberg production.

The Sons of Veterans' Auxiliary enjoyed a Lincoln Day program last Thursday afternoon at their regular meeting in the G. A. R. room of the court house.

Mrs. John A. Shields and son John of Seymour, Ind., were luncheon guests of Mrs. Will O. Fendner while Mr. Shields spoke to the Kiwanis and Rotary clubs and the junior and senior high schools Tuesday afternoon.

Miss Elizabeth Waite entertained the Mary E. Logan class of the United Presbyterian Sabbath school, at her home Tuesday evening. After the business meeting a social time was spent in valentine games, a valentine box was opened and the hostess carried out the same idea in dainty refreshments served.

Mrs. Fred Arbuckle entertained the members of the Wednesday Afternoon Bridge club and four extra tables of guests Tuesday afternoon at her home in West Second street. A very pleasant afternoon was enjoyed by the guests and as the concluding feature after the card games refreshments were served.

The Pastor's Aid Society of the Main Street Christian church held their regular meeting Tuesday afternoon in the parlors of the church. Mrs. L. C. Overdorf sang a beautiful solo and during the business session the members voted to have a candy sale at the Castle and Princess theatres, Saturday Feb. 21.

The Girl's and boy's basketball teams of the Webb high school were royally entertained Tuesday evening with a dinner party at the Lollis hotel, the members of the high school faculty being the entertainers. After the dinner at the hotel they were taken to the Rushville high school play at the Graham Annex auditorium and then were served to refreshments at the Carou Candy Kitchen.

The War Mothers entertained Tuesday with a luncheon at the home of Mrs. Margaret English, honoring Mrs. Ada Stoops' and Mrs. English's birthdays. A delicious chicken luncheon was served and was greatly enjoyed by the guests. The afternoon was spent informally. The War Mothers wish to thank the people who made it possible for them to send four hundred pounds of clothing to the Near East Relief.

The Woman's Auxiliary of the Noble Township Farmer's association held a splendid meeting Tuesday evening in the New Salem school building. The following program was given: piano duet, Esther and Ruth Geise; talk, "Preparing Eggs for Setting," Mrs. Walter Norris; talk, "Setting and Caring for the Incubator," Mrs. Charles Carney; violin solo, Marianne Holman; talk, "Feeding Chickens," Mrs. Cliff Stevens. Each talk was followed by an open discussion. The program closed with a musical monologue by Mary Lois Brickler.

During the business session officers for the coming year were elected: president, Mrs. Charles Carney; vice president, Mrs. Willard King; secretary-treasurer, Mrs. Cliff Stevens; program committee, Mrs. Wal-

ter Wilk, chairman, Mrs. Frank Wilson and Miss Maye Weir. The club's next meeting will be held the first Tuesday in March and the subject for discussion will be "House-cleaning." It was decided at this meeting that there will be no dues paid and every woman in the township is welcome to attend these meetings.

Mr. and Mrs. Elijah Fry of Falmouth, observed their Golden Wedding anniversary at their home Tuesday, when more than one hundred friends, neighbors and relatives gathered during the day to assist in the observance.

The couple was married 50 years ago just north of Falmouth, and they have spent their entire married life in that community, living a portion of the time in Fayette county, across the Rush county line.

On the happy occasion of their anniversary, the couple was honored with the presence of all members of their immediate family, excepting one grandchild. All six children, born to the union, were present, as well as six of the seven grandchildren and three great grandchildren.

The six children are Mrs. E. R. Jeffrey and Mrs. Erma Moore of Connersville, Mrs. C. C. Brown of Laurel, Mrs. Clint Rees, Clyde Fry and Miss Mariah Fry, all of Falmouth.

The reception given in their honor was held in the afternoon from two to five, and again at night from 7:30 until ten. At the noon hour a dinner was served for the family and guests from a distance.

Mr. and Mrs. Fry received many gifts of flowers and other remembrances. Both are in good health, and will no doubt live to see many more anniversaries. Mr. Fry is 71 years of age and Mrs. Fry is 69.

Among the guests from a distance, who assisted in the wedding anniversary celebration, were the following: Mrs. T. P. Butler of Richmond, Mrs. Mollie Johnson of Cambridge City, Mrs. Phoebe Hacker of East St. Louis, Ill., Mr. and Mrs. M. G. Overhiser, Mrs. Amanda McCready, Mrs. Elizabeth Maze, Mr. and Mrs. Elmer Schweir and Paul Dawson, all of Indianapolis.

MID-WINTER PICNIC

The First Presbyterian church will hold a mid-winter picnic in the basement of the church Thursday night, which all the members and friends of the church are urged to attend. Bring one article of food, a few sandwiches, whatever dishes you want to use and your own silverware. Food should be on the table at six o'clock, ready to eat at six-thirty.

The speaker for the evening will be the Rev. Harry B. Foster of Chicago. There will be music, singing and a social good time. This is in the nature of a pitchin' supper. The Band of workers will meet in the parlors of the church at four o'clock and remain for the supper.

BIRTHDAY PARTY

The mid-week service at St. Paul's Methodist Episcopal church Thursday evening will be in the form of a birthday party, partly to celebrate the birth anniversary of Lincoln, and also in memory of other great men who were born in February.

Among those having birthday's this month, who will be included in the program, besides Lincoln, will be Washington, Longfellow, Lowell, Dickens, Edison, Ruskin, Robert Burns, General Sherman and others.

RECEIVES BOX OF FRUIT

Mrs. J. B. Pusey has received a fine box of fruit from her friends, Mr. and Mrs. J. A. Smith of Lakeland, Fla. The box consisted of selected oranges and tangerines, some of the oranges weighing one pound and some of the tangerines weighing a half pound.

THEY LEARNED WHAT HAPPENED TO JONES

Continued from Page One
love with the Rev. Anthony Goodly and who wonders if she has changed any in the last thirty years, furnishes much amusement for the remainder of the two scenes.

When the bishop arrives at the

home of his brother, Jones takes him up to his room, to prevent the remainder of the family from detecting who he is. Rev. Goodly is taken for an escaped lunatic from the sanitarium, the part played by Wilbur Walters, when he appears in the living room of the Goodly's, wrapped in an Indian blanket. The lunatic,

who was perfectly safe, thought he was an Indian, but was taken in custody by the superintendent of the sanitarium, Donnell Power, after causing much excitement in the professor's home.

The way the hymn book salesman gets out of all the trouble he has caused in the Goodly's home is very

clever, and may be seen again tonight at the auditorium by the people who did not witness the production last night.

Helma, a Swedish maid in the home of Prof. and Mrs. Goodly, was one of the characters in the play, and the part was played by Ruth Johnson in an excellent way.

All the players were excellent in their different parts and their stage actions were fine, each one acting as old timers.

The high school orchestra provided the music during the acts and after the production, being under the leadership of Prof. D. S. McIntosh, director of music in the high school.

Why America Must Have More Paved Highways

Permanent roads are a good investment—not an expense

Almost every section of the United States is confronted by a traffic problem.

Month by month this problem is becoming more and more serious.

Hundreds of cars pass a given point every hour on many of our state and county roads. Down-town city streets are jammed with traffic.

Think, too, how narrow many of our roads are, and how comparatively few paved highways there are in proportion to the steadily increasing number of cars.

If the motor vehicle is to continue giving the economic service of which it is capable, we must have more Concrete highways and widen those near large centers of population.

Every citizen should discuss highway needs of his community with his local authorities.

Your highway officials will do their part if given your support.

Why postpone meeting this pressing need?

An early start means early relief.

THE OLD HOME TOWN By Stanley

Utility

Every Day in the Month
Twelve Months in the Year

More motorists every day come to the conclusion that for year 'round utility there is no more practical or convenient car than a Ford.

The Fordor Sedan is roomy, comfortable, and attractive in appearance—inside and out.

In city traffic it handles and parks so easily that thousands drive it who could readily afford costlier cars.

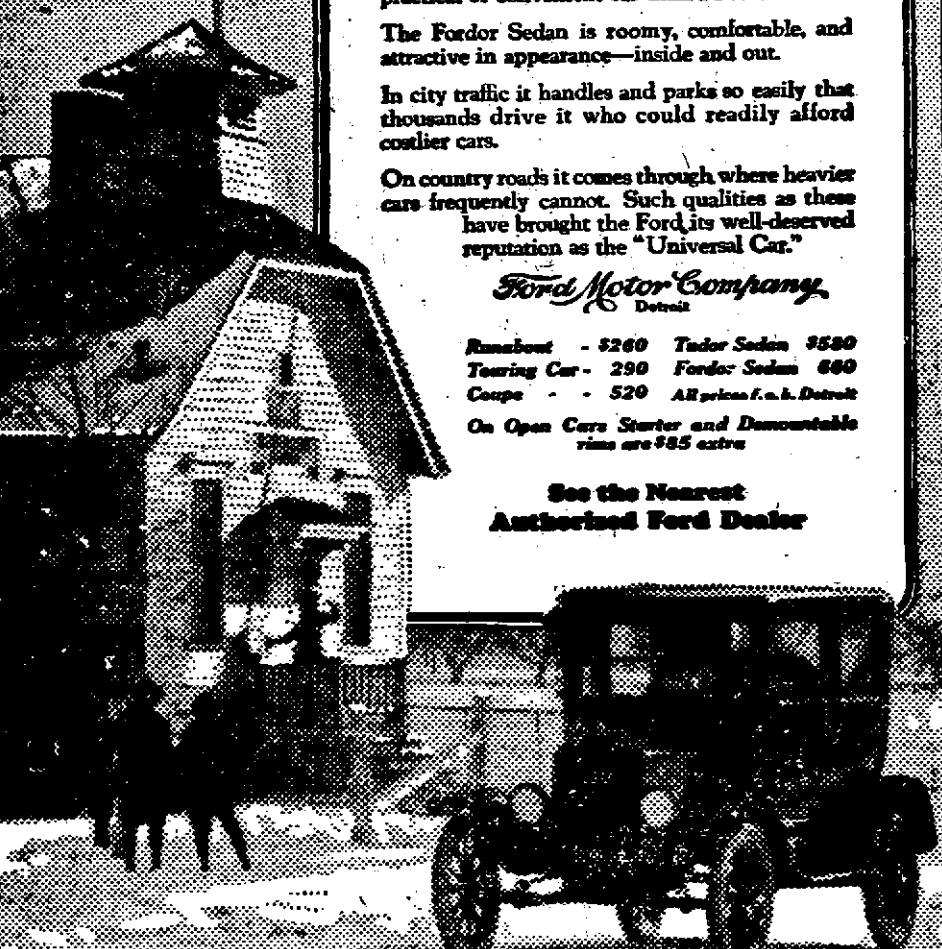

On country roads it comes through where heavier cars frequently cannot. Such qualities as these have brought the Ford its well-deserved reputation as the "Universal Car."

Boils!

S.S.S. will rid you of boils, pimples, blackheads and skin eruptions!

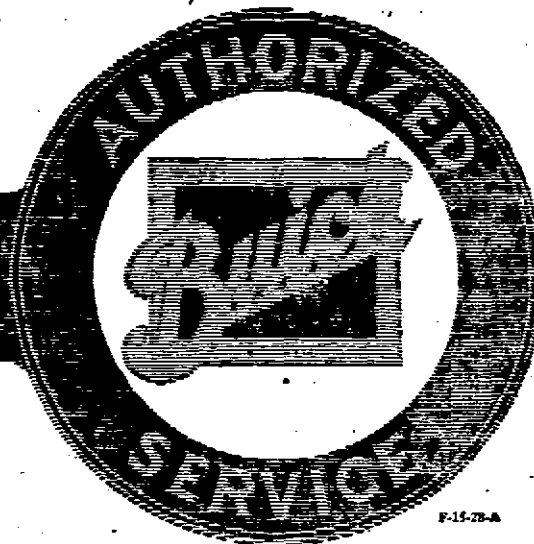

DON'T CLOSE your eyes to the warning which Nature gives when angry, painful boils appear on your neck, face or other parts of your body. Boils, pimples and so-called skin disorders are the result of an impoverished condition of the blood and are not to be trifled with.

It is nothing more than folly to expect to get absolute relief from the use of local treatments, such as ointments, salves, etc. Such remedies may afford temporary relief but you want more than relief; you want a remedy which will rid you forever of the torturing disorder. And the one remedy which has no equal is S.S.S.

S.S.S. stops boils and keeps them from coming. S.S.S. builds blood-power! That is what makes fighting blood. Fighting blood destroys impurities. It fights boils! It fights skin eruptions—pimples, blackheads, eczema! It always wins! S.S.S. has been known since 1826 as one of the greatest blood builders, blood cleansers and system strengtheners ever produced. There are no unproven theories about S.S.S., the scientific results of each of its purely vegetable medicinal ingredients are admitted by authorities. Begin taking S.S.S. today and clear your skin of those blood disorders!

S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.
